Who We Are

Founded on an aesthetic of lush Bohemia, with a distinctly modern twist, it would be our rattan Peacock range that initially put us on the maps, most notable the iconic Peacock Chair, from all small things - big things grow!

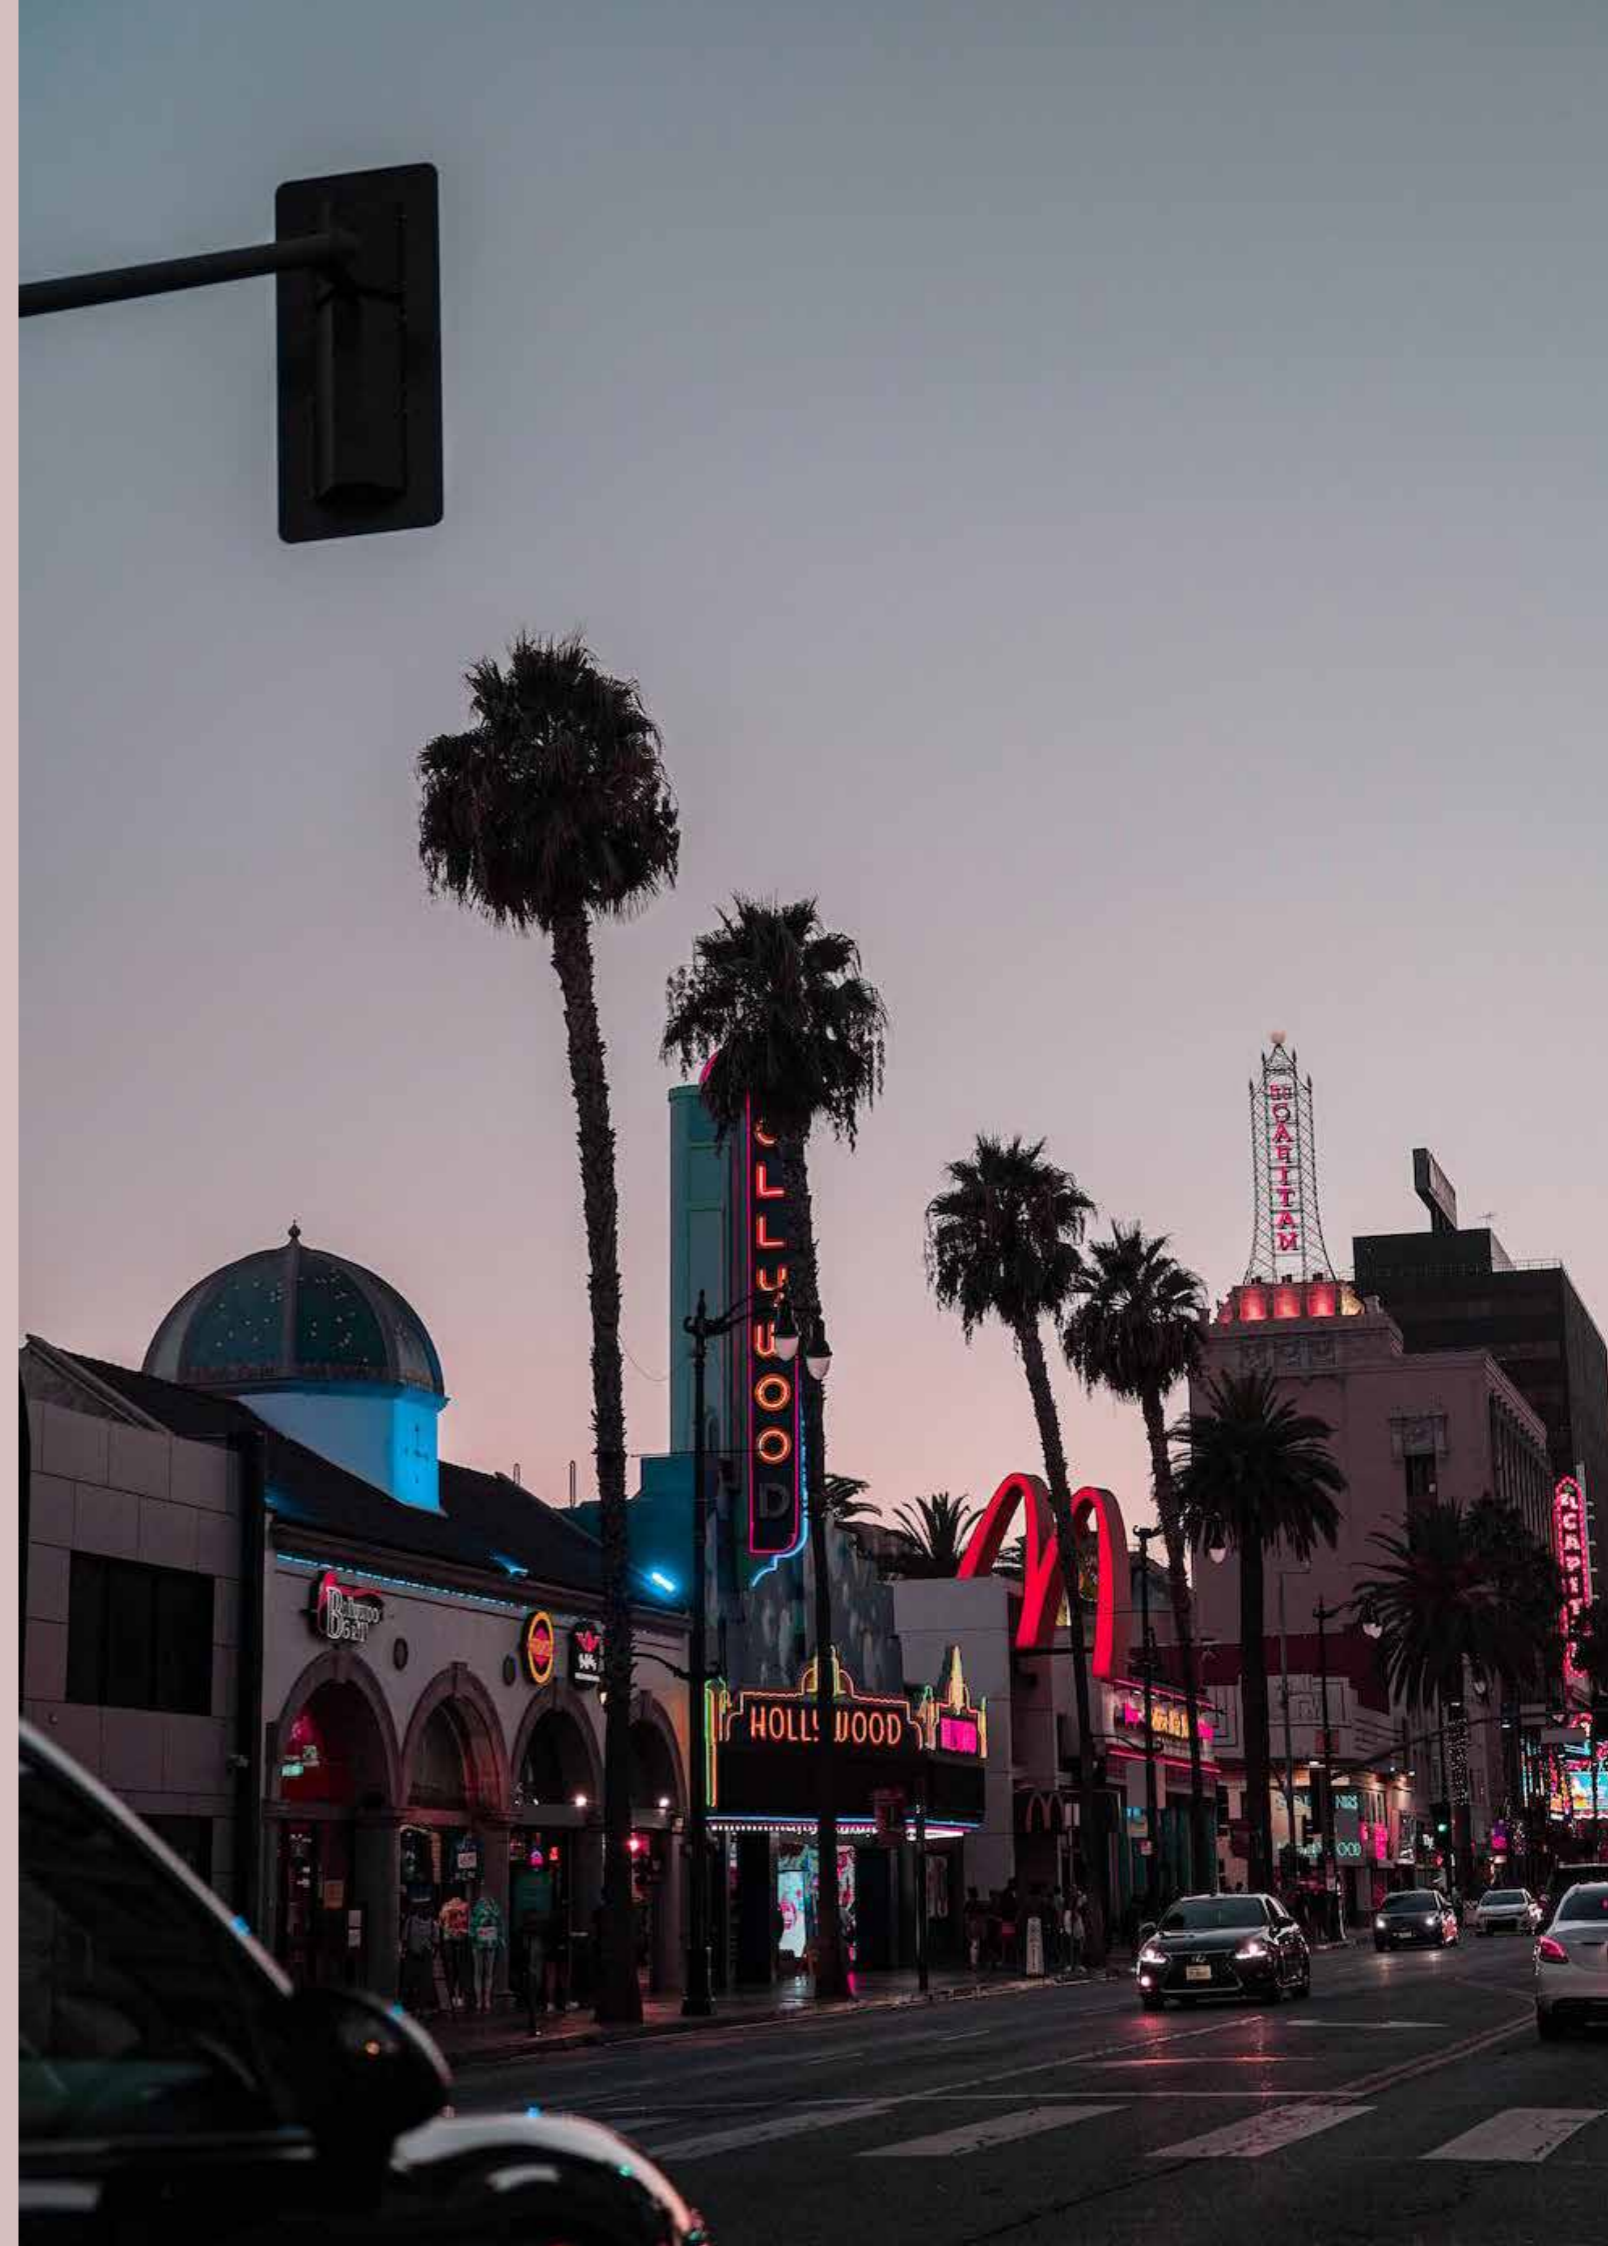

While Love Tree has now flourished into a bona fide Melbourne icon, we still pride ourselves on crafting beautiful vintage inspired furniture and homewares, that harness the best of contemporary style and sustainable craftsmanship.

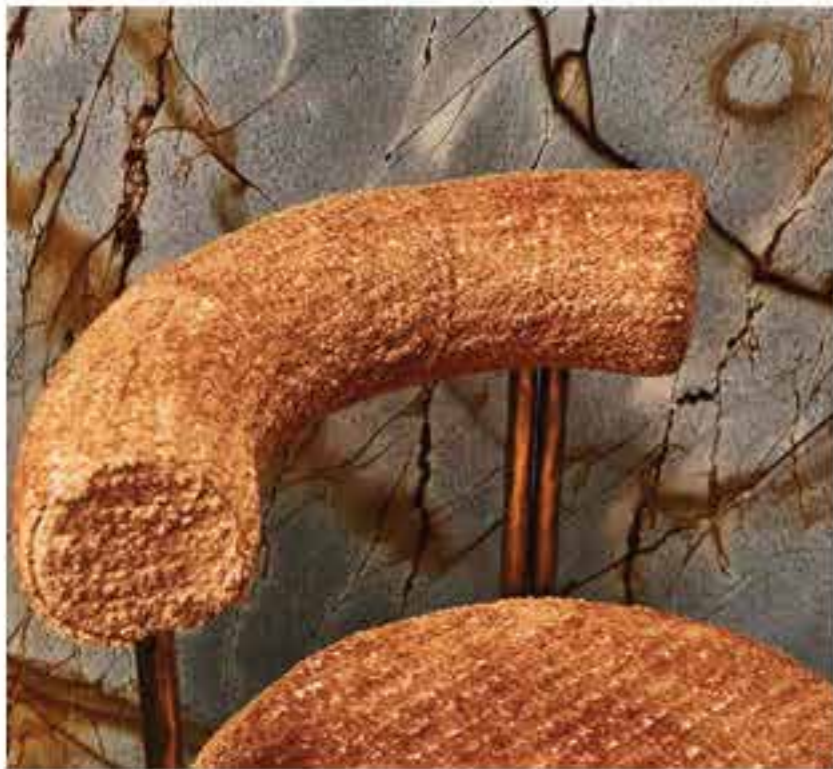

Designed locally and handcrafted globally, we are committed to never mass-producing and always protecting the lives and the environments of the beautiful communities who help create our products.

Our philosophy to style is free-flowing, we love to clash colours with textures and regularly break the decorating rules. After all, love is really simple. It is passionate and sensual yet diverse and lively. That's the kind of love we like to spread!

GOLDEN HOUR

The Golden Hour Collection plays homage to Hollywood in the 1970's and 80's, when decadence and glamour became iconic.
