Safety Data Sheet - Gentle Home Cleaning, Scented

Section 1: Chemical Product and Company Identification

Product Name: Gentle Home Cleaning Scrub, Scented: Peppermint

Tea Tree

Catalog Codes: GCS-PTT, GCS-BKT-PTT

Recommended Use: Consumer home cleaning

Restrictions on Use: None

Emergency Phone Number: 312.678.5257

Manufacturer Name: Meliora Cleaning Products

Address: 2010 W Fulton, STE F236, Chicago IL 60612

Phone Number: 312.678.5257

website: www.meliorameansbetter.com email: info@meliorameansbetter.com

Section 2: Hazard Identification

Potential Short-term Health Effects: May be harmful if swallowed, inhaled, or on prolonged skin contact. Irritating to eyes. **Subchronic effects/Carcinogenicity:** none known. Ingredients are not listed as a carcinogen or potential carcinogen by IARC, NTP, OSHA, or ACGIH

Section 3: Composition and Information on Ingredients

Composition:

Name	CAS#
Sodium Bicarbonate (Baking Soda)	144-55-8
Vegetable Soap	various; see below
Essential Oils	various; see below

Vegetable Soap Composition:

Name	CAS#
Sodium Cocoate	61789-31-9
Glycerin	56-81-5
Cocos Nucifera Oil (Coconut Oil)	8001-31-8
Water	7732-18-5

Essential Oils Used for Scents:

Name	CAS#
Mentha Piperita Leaf (Peppermint) Oil	8006-90-4
Melaleuca Alternifolia (Tea Tree) Oil	68647-73-4

Version: November 14, 2023

Section 4: First Aid Measures

Eye Contact: remove contact lenses, flush with plenty of water for 15 minutes. If irritation persists, seek medical attention.

Ingestion: If large amounts are swalled, do not induce vomiting. Administer water if person is conscious. Never give

anything by mouth to an unconscious person.

Skin Contact: flush skin with water. Wash clothing before reuse.

Inhalation: move to fresh air. Seek medical attention if irritation develops or person has difficulty breathing.

Section 5: Fire-Fighting Measures

Flammability of Product: non-flammable Auto-Ignition Temperature: Not Applicable
Flash Points: Not Applicable
Flammable Limits (LFL/UFL): Not Applicable

Products of Combustion: emits Na2O and CO2 fumes when heated to decomposition.

Extinguishing Media: Non-combustible material. Use extinguishing media appropriate for surrounding fire.

Section 6: Accidental Release Measures

Scoop up into dry, clean containers for reuse or landfill disposal. Remove remaining dust with a wet cloth and neutralize large residues with a dilute solution of acetic acid. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.

Section 7: Handling and Storage

Store in cool, dry areas away from incompatible substances (acids). Keep away from extreme temperatures. Do not ingest or breathe dust. Ingredients will react with acids to yield carbon dioxide gas which can accumulate in confined spaces. Do not enter confined spaces until they have been well ventilated and carbon dioxide levels have been determined to be safe.

Section 8: Exposure Controls and Pesonal Protection

Engineering Controls: Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels of dust particles below 15 mg/m3. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants lower than 15 mg/m3.

Personal Protection: for handling large amounts, use splash goggles, lab coat, gloves, and dust mask/respirator to avoid skin, lung, and eye irritation from dusts.

Exposure Limit: OSHA PEL - General Industry: 15 mg/m3 for nuisance dust

Section 9: Physical and Chemical Properties

Physical state/appearance: Solid white to off-white powder
Odor: Strong minty odor
Vapor Pressure: Not applicable.

Vapor Pressure: Not applicable.

Vapor Density: Not available.

Vapor Density: Not available.

Volatility: Not available.

PH (1% soln/water): Not Available [Basic]
Odor Threshold: Not available.

Water/Oil Dist. Coeff.: Not available.

Melting Point: Not AvailableSolubility in water: Soluble

Section 10: Stability and Reactivity

Stable under normal conditions. Avoid high heat and moisture.

Incompatible Materials: Strong oxidizers, strong acids. Reacts with acids to yield carbon dioxide.

Hazardous Decomposition Products: decomposition will not occur if handled and stored properly. In case of fire, oxides of carbon, sodium oxide, hydrocarbons, fumes, and smoke may be produced.

Hazardous Polymerization: Not Applicable

Version: November 14, 2023

Section 11: Toxicological Information

General Information: Adverse effects on human health are not to be expected in normal use. **Routes of Exposure:** Eye contact, ingestion, inhalation of dust, prolonged skin exposure

Eye Effects: Eye irritant upon contact with powder or significant amounts of dust from powder.

Skin Effects: Moderate skin irritant on prolonged or repeated contact

Acute Inhalation: Dusts inhaled may cause mucous membrane and upper respiratory irritation.

Acute Oral/Ingestion Effects: May cause irritation of gastrointestinal tract such as vomiting or abdominal pain.

Toxicity to Animals: (note: conservative estimate based on values for sodium carbonate) Acute oral toxicity (LD50):

4090mg/kg [rat]. Acute toxicity of the dust (LC50): 1200mg/kg [mouse].

Section 12: Ecological Information

Ecotoxicity: Not Available BOD5 and COD: Not Available

Persistence in Environment: This product is not expected to persist in the environment.

Bioaccumulation: This product is not expected to bioaccumulate.

Section 13: Disposal Considerations

Dispose of waste in accordance with federal, state, and local environmental regulations.

No special disposal considerations are expected for empty containers

Section 14: Transport Information

DOT: not a DOT controlled material (United States) Identification: Not Applicable

Special Provisions for Transport: Not Applicable

Section 15: Regulatory Information

CLEAN AIR ACT SECTION 611: Material neither contains nor is it manufactured with ozone depleting substances (ODS).

OSHA: Not hazardous under 29 CFR 1910.1200

RCRA: Not a hazardous material or a hazardous waste by listing or characteristic.

TSCA Inventory List: Ingredients are reported in the EPA Inventory List

HMIS (USA), conservative values based on constituent ingredients: Health Hazard: 2 Flammability: 0 Reactivity: 1
