

Fragrance Ingredient Disclosure

You deserve to know what's in your products. We choose the ingredients we use with the health of people and the environment in mind and disclose every ingredient on the product label and our website. In addition, we support ingredient disclosure laws such as California's <u>Cleaning Product Right-to-Know Act (SB 258)</u> and New York's <u>Environmental Conservation Law (Articles 35 & 37)</u>.

California Senate Bill 258, the Cleaning Product Right to Know Act, requires the disclosure of all fragrance allergens listed in <u>Annex III of the EU Cosmetics Regulation No. 1223/2009</u> when the finished product contains 0.01% (100 ppm) or higher. Our scented products contain organic essential oils which can be fragrance allergens and contain chemical subcomponents which can also be fragrance allergens.

In the charts below, a checkmark () indicates that the finished product contains 0.01% or more of the listed fragrance allergens.
