

# enFrame ICT Framework

## Introduction

Our ICT framework provides schools, academy trusts, and other institutions a **one stop shop** for all ICT and Technology goods and services. There are fully documented processes and templates available for every procurement scenario. We will provide guidance through the process and can also provide specialist ICT and Net Zero Consultancy to help customers develop their ICT Strategies and requirements where required.

We have 57 suppliers across 9 lots and 12 sub-lots enabling customers to tailor their procurement to their exact needs and ensuring that there are a number of suppliers that could meet those ICT needs.

Customers are not charged for using the framework unless they request specialist Consultancy. Instead, like all frameworks, suppliers pay a small framework management fee.

## Our Framework is:

- ✓ FTS Compliant.
- ✓ Simple and easy to use.
- ✓ Free for customers.
- ✓ Designed for schools and multi-academy trusts but available to the whole public sector.
- ✓ Streamlined with processes and templates saving both the customer and supplier time and money.

**Our framework has a strong focus on Social Value, Fighting Climate Change, and reaching Net Zero.**

## About us

Our team has been working with schools, multi-academy trusts and ICT suppliers for over 30 years, assisting with ICT strategy, procurement, and business and financial advice. We have spent the last 4 years helping the education sector reach their Net Zero goals.

## WHAT OUR CUSTOMERS SAY

“ The enFrame frameworks are really straightforward to use. The ability to tailor the procurement requirements to the needs of the trust, allied to a strong focus on social value, gave us the flexibility we needed in a user-friendly way ”

**Andy Kreppel**  
**Programme Director**  
*The Elliot Foundation Academies Trust*

“ Working with enFrame to procure a long term ICT Partner has been very beneficial to the Trust. Their in-house expert has reviewed all areas of provision and accurately costed to ensure value for money. The process has been well supported from start to finish, with a friendly voice at the end of the phone if needed,

and has provided the Trust with an enhanced level of technical expertise adding further value to the process. A big thank you to the team who have worked with us. ”

**Zoe Bratt**  
**Chief Operating Officer**  
*Abingdon Learning Trust*

“ For a really large procurement exercise enFrame and their IT Support procurement framework have made it relatively simple and understandable, and provided excellent support throughout. I am really confident that we will end up with a really good outcome after a really robust process. ”

**Louise Beale**  
**Head of Operations and Compliance**  
*The Diocese of Coventry Multi Academy Trust*

“ We are delighted to be a sponsor of this framework contract with enFrame who as well as being a Community Interest Company also shares our commitment to reducing our environmental impact

enFrame have provided us with a highly professional service in the tendering of our managed service requirement through the framework providing expert advice, guidance and challenge to help us develop our new specification for the service to our 57 academies. We very much believe that this framework and the support from enFrame will be a very useful solution for the schools going forward as they seek to derive the best value for money. ”

**Clive Hammond**  
**Head of Procurement**  
*Academies Enterprise Trust*

“ enFrame’s ICT Framework has taken a huge burden from our shoulders, ensuring that we have been able to secure a great supplier who fits our needs, with the procurement assurances that the Framework provides. The Framework is responsive and adaptable, and enFrame themselves have been thoroughly professional and listened carefully to what we needed, keeping us in the loop throughout . We are very pleased with the whole process and would recommend the enFrame ICT Framework unreservedly. ”

**Fiona Hammans**  
**Chief Executive Officer**  
*Abingdon Learning Trust*
