GOES IN WET.  
COMES OUT DRY™

*"My son dropped his phone in water. This product worked just as advertised!" - Jay*

*"LIFE SAVER. WORKS PERFECTLY!!! Saved my iPhone! Dropped it in the lake and it wouldn't start up. Having no phone insurance, I saw this product and figured I'd give it a try. IT ACTUALLY WORKED!!! Great product!" - Joe*

# Rescue Wet Devices Overnight.

**Goes in wet, comes out dry™**

If life were waterproof, we wouldn't panic when our phone or electronics get wet. But \_\_ it happens, and when it does, the Absorbits Wet Electronics Rescue Pouch saves the day.

Our nylon material wicks the wet out from every nook and cranny of your device. Then our superabsorbent technology traps the dampness, so your device dries out overnight.

And you can dry out your pouch and reuse it!

# ABSORBITS™

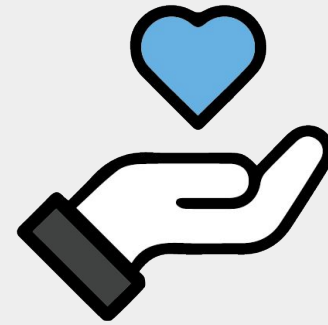

## Wet Electronics Rescue Pouches

### HOW TO USE

1. Turn off wet device immediately.
2. Remove device case or covering.
3. If possible, remove the battery. If not, that's okay.
4. Wipe down device and all components with dry towel or cloth.
5. Place device and battery inside Absorbits™ pouch.
6. Check device in 4-6 hours. If it is still not turning on, repeat until it has been in Absorbits™ pouch for total of 24 hours.

**REUSABLE:** To prepare pouch for next use, simply place in sun or dry with a hair dryer or in clothes dryer on lowest heat setting.

### ABSORBITS GIVES BACK

As a give-back company, Absorbits donates a portion of its profits to organizations that help veterans and children with mental health challenges.
