BLOCKS

HOW TO BUY

1st Select your color choice. We offer three options.

Greystone

Sandstone

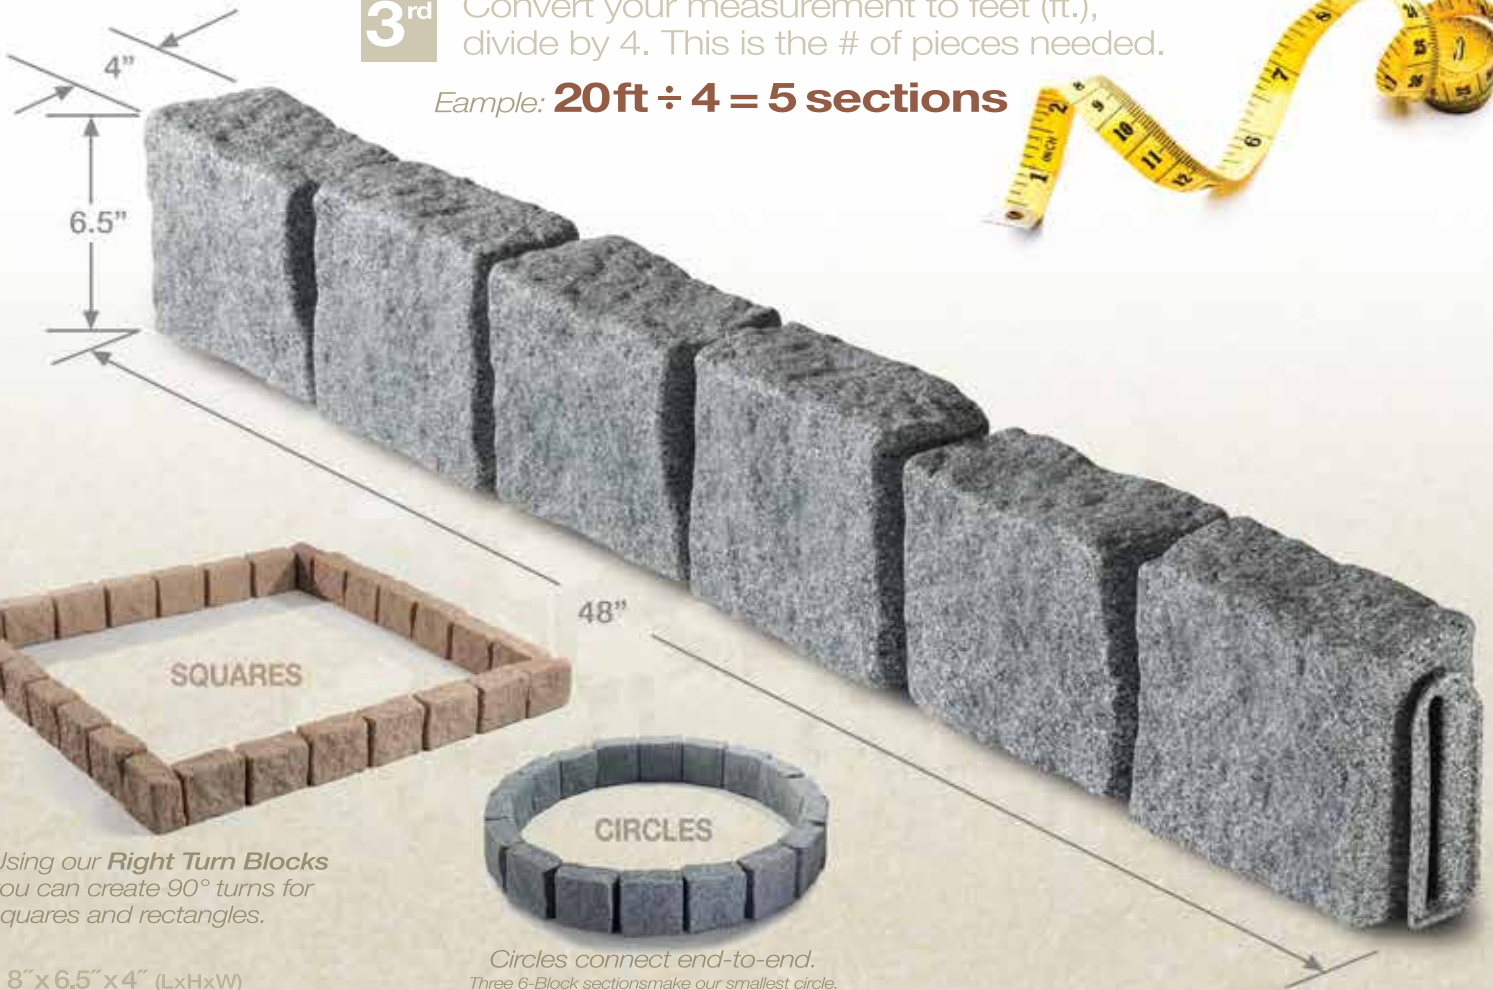

Cobblestone

2nd Measure and record your edging length.

3rd Convert your measurement to feet (ft.), divide by 4. This is the # of pieces needed.

Example: **20ft ÷ 4 = 5 sections**

Using our **Right Turn Blocks** you can create 90° turns for squares and rectangles.

8" x 6.5" x 4" (LxHxW)

FUNCTION BLOCKS

Circles connect end-to-end. Three 6-Block sections make our smallest circle.

OUR CUSTOMERS TELL US

Fast & Easy Installation

*Ester S.
South Carolina*

"I thought it would be hard, but I put it together in just one hour! My husband was so surprised! It looks great and was really easy to do. I suggest it for anyone who wants to make their home look better without too much work."

Thank You!

*Dave M.
Texas*

"Thanks a lot for the extender blocks to complete my landscaping project. It looks Beuta-ful! The left turn blocks were really cool and it was easy to make curves where I needed them. Looks like a pro did it! Outstanding product and I wish you success."

Really Simple

*Denise L.
Pennsylvania*

"I love this! It came when they said it would, and the instruction on the box was easy to understand. Putting it together was really simple too. The best part is that it looks just like real sandstone blocks!"

Looks Great

*Susan R.
Florida*

"These blocks look like they're made of real granite. They have all the bumps and textures to look real, but they're not as heavy as real granite blocks."
