

Product Data Sheet

Application: Internal Walls and Floors

ACOUSTIC PARTITION ROLL (APR 1200)

Acoustic Insulation for Internal Stud Walls and Floors

Acoustic Partition Roll (APR 1200) is a glass mineral wool roll that can provide high levels of acoustic performance in metal and timber internal stud walls as well as timber joist separating and internal floors. To support ease of installation, it is supplied in 600mm widths for an easy friction fit between stud centres.

Features and Benefits

Excellent Acoustic Performance

Delivers a measurable reduction in sound transmission through a wide variety of internal stud walls and floors.

Easy to Install

Straightforward to handle, cut and install with minimal waste (off-cuts can be reused). Friction fits between 600mm stud centres with no need for additional fixings.

Fire Classification

Achieves a Euroclass A1 Reaction to Fire classification, according to EN 13501-1.

Sustainability

Achieves a BRE Green Guide rating of A+ which can assist in demonstrating environmental performance in your BREEAM assessments. Manufactured from up to 75% recycled glass on a plant that uses 100% renewable electricity. For further details, see the Environmental section below or visit insulation-uk.com/CSR

British Gypsum SpecSure® Warranty

Features in a number of British Gypsum proprietary systems - for more details, visit british-gypsum.com/literature/white-book. The SpecSure® warranty confirms British Gypsum proprietary systems will perform as specified for the lifetime of the building. For further details, please visit british-gypsum.com/technical-advice/specsure

Key Considerations

When using ISOVER Acoustic Partition Roll (APR 1200), you need to satisfy yourself that use of the product meets all relevant national Building Regulations and guidance as well as local, national and other applicable standards relevant for your construction or application, including requirements in relation to fire and applicable height restrictions.

Please refer to the following product documents:

- Declaration of Performance - available at insulation-uk.com/products/isover-acoustic-partition-roll-apr-1200
- Safe Use Instruction Sheet - available at insulation-uk.com/healthandsafety

Product Specification

Product code	Thickness (mm)	Length (m)	Width (m)	Roll area (m ²)	Rolls per pallet	Pallet area (m ²)
5200625577	25	20.00	2 x 0.60	24.00	24	576.00
5200625578	50	13.00	2 x 0.60	15.60	24	374.40
5200625579	65	10.00	2 x 0.60	12.00	24	288.00
5200625580	75	12.20	2 x 0.60	14.64	24	351.36
5200625581	100	9.17	2 x 0.60	11.00	24	264.10

Characteristics

Fire Euroclass A1 Reaction to Fire classification according to EN 13501-1.

Environmental All ISOVER products are manufactured under Environmental Management System – ISO 14001:2015. Achieves an A+ Green Guide rating for glass mineral wool insulation (ref 815320002 for 25-65mm thickness, ref 815320005 for 75-100mm thickness) that can assist in demonstrating the environmental performance within BREEAM assessments.

Recycled Content Manufactured from up to 75% recycled glass.

Certification UKCA Marked to BS EN 13162.
CE marked to EN 13162.
Designation code: MW-EN 13162-T1.

Handling, Storage, Health and Safety Information regarding storage, installation and handling of ISOVER products and health & safety information can be found at insulation-uk.com/healthandsafety. Achieves a Eurofins Gold product status for indoor air quality (certificate available at insulation-uk.com/Eurofins). EUCEB certified, demonstrating our mineral wool fibre products conform with Note Q of Regulation (EC) No 1272/2008 (to download the certification, please visit insulation-uk.com/accreditations).

Quality All ISOVER products are manufactured under Quality Management Standard – ISO 9001.
