PT-P750W

The PT-P750W is a powerful, yet easy-to-use label maker that enables multiple users to connect via a wireless network, print from compatible Apple® iOS and Android™ mobile devices, or connect it via the included USB cable to nearly any computer in the office. It enables users on a wireless network to quickly create a wide variety of professional labels using a full-sized computer monitor and keyboard. It's great for individual label printing, but particularly well-suited to multi-label creation jobs thanks to print speeds up to 30mm per second, repeat printing capability, and an automatic half or full cutter to help save time.

Quickly create a wide variety of professional labels using a full-sized computer monitor and keyboard.

Key Features:

Share a single printer within a workgroup

Compatible with Windows and Mac

Print directly from your mobile device

Easy to integrate with custom apps

Near Field Communication (NFC)

Packed with features

Multiple Power Options

Use the included AC cable or 6 AA batteries⁷ to power the unit for use at a desk⁵, or make it truly portable by running it on a rechargeable Li-ion battery.

Flexible Connectivity

Multiple users can connect to the PT-P750w via a wireless 802.11b/g/n network or connect it via the included USB cable.

Great for Developers

Operates on an open-source development platform, it's easy for app developers to integrate label printing into their iOS and Android applications.

Super-fast Printing

The PT-P750W offers super-fast print speeds of up to 30mm per second.

Mobile Device Printing

Install the free Brother iPrint&Label app on your compatible Apple iOS or Android mobile device.

Pre-loaded Software

Includes pre-loaded labeling software that allows you to simply attach via USB to a PC or Mac computer and immediately begin.

Expanded Design Options

Expand the capabilities of the PT-P750W by using the compatible P-touch Editor Label Design Software, available for free.

Brother TZe laminated labels - designed to last

Brother laminated TZe tapes consist of seven layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight. As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.

Laminated

Temperature Resistant

Water Resistant

Fade Resistant

Abrasion Resistant

Chemical Resistant

Easy Peel

Strong Adhesion

Technical Specifications for the PT-P750W

Hardware	
Maximum Tape Width	24mm
Built-in Memory	No
Tape Cutter	Automatic (Half and Full)
Maximum Print Speed	20mm/sec. (using rechargeable Li-ion battery ⁷), 30mm/sec. (using including AC Power Adapter)
Maximum Print Resolution	180 dpi (Max 180x360 dpi)
Maximum Print Height	18mm
Power Source	AC Power Adapter (included), Rechargeable, Li-ion battery (optional), 6 x AA Batteries ⁵ (optional)
Interface	USB, Wireless (802.11 b/g/n), NFC ³ , Wireless Direct
