## TWO CARD DECKS IN ONE

**\$36**  
RRP

The journey from Maiden to Mother is one of life's richest rites of passage; it is a unique experience highlighting your unending strength and beauty. To witness new life starting their own earthly journey is an honour and a privilege. Capturing both these journeys of growth and transformation allows us to celebrate and honour your & your child's strength, beauty and transformation for time immortal - never will these passages be forgotten, for their documentation returns us to this joyous time whenever we review.

Capture every precious moment with our innovative Milestone Cards, the first of their kind to seamlessly combine two decks in one!

These beautifully hand-drawn cards act as companions on your incredible journey. The first deck chronicles the awe-inspiring growth of your baby bump week by week, while the second flips to celebrate those unforgettable newborn moments - from the first coos and giggles to cherished "firsts" throughout their first two years.

More than just keepsakes, these cards become a cherished time capsule of your journey. Fill in the blanks with special dates and details, creating a treasured record for you and your child to revisit for years to come. Luxurious cardstock ensures these memories are preserved beautifully, housed in a keepsake box for safekeeping.

Best Birth Co. founder Sara Dobson understands the magic (and the forgetfulness!) of motherhood. These cards are her creation, inspired by her own journey to never miss a precious bump, coo, and milestone.

Let our Milestone Cards help you create a visual diary of your unforgettable adventure. Order yours today and start cherishing every moment from bump to brilliant baby!
