

## VÉRITÉ

---

The Vérité is Pacific Green's statement armchair. It revives the stunning combination of cast bronze and beautifully-sanded Palmwood® that was a feature of Egyptian artefacts.

An exclusive piece of rare craftsmanship and material selection. No compromises are made on luxury or comfort. Each handmade item of furniture is a unique artwork and heirloom.

Exceptional natural materials are sourced from around the world. The cushioning contains feather down and latex from New

Zealand, while the seat is supported by a floating platform similar to a Rolls Royce.

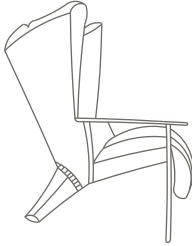

The arms are fashioned from Arabian bronze and Palmwood from Fiji. The chair is upholstered in 2.5mm full-grain leather from Italy. Each chair takes several days to craft.

Owners include furniture designer Pasquale Natuzzi, Jean Paul Gaultier, Matthew McConaughey, Pierce Brosnan and Clint Eastwood.

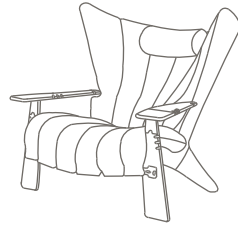

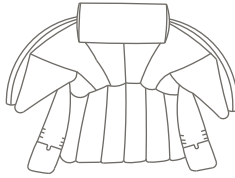

Shown in Vérité Ochre nubuck leather.
