Did you know we source and roast all of our own coffee?

North Star was founded ten years ago to prove that an approach based on impact and quality will improve the viability of the coffee supply chain.

We have since built valued partnerships throughout the supply chain allowing us to deliver quality, impact-led, specialty coffee to hundreds of coffee shops across the U.K. and in our two coffee shops in Leeds.

For you, this translates to an array of coffee options in-store. Ask your server about our filter coffee selections, explore our ever-changing guest espresso, or take home a bag for later.

Your support allows us to build projects that help secure the future of coffee.
