

# JRINK™

## **Team Associate-- Position Description**

The Team Associates are where the rubber hits the road--they direct the first impression our customers have with us. They also have Perks include free juice (obviously), free yoga, tons of fun group workouts and activities, competitive pay, extensive people development work (goal sheets, yes) and room for growth. Experience working in retail with a lifestyle or food brand preferred.

Those who are interested in working full time with JRINK must have full availability including weekends. They will be scheduled for 30-40 hours per week and likely scheduled for at least two closes per week. Days off will be one weekday and one weekend per week, likely in succession wherever possible.

Day to day, the Team Associate spends all their time in the store. Under the guidance of their Team Director, Team Associates spend 90% of their time working shifts and 10% of their time working on projects delegated to them by the Team Director. This includes cleaning tasks, inventory, general customer service tasks, and general store upkeep. We expect Team Associates to grow, try things, and constantly learn in this little petri dish we've made.

The Team Associate maintains part time (up to 20 per week) or full time (30-40 per week) hours. We like you a lot, which is why we want to see you a lot!
