finished dimensions

9" wide x 86" long, excluding fringe and after finishing.

10.75" wide x 110" long, on loom.

yarn

Juniper Moon Cumulus Rainbow
(94% Israeli Mako Cotton 6% Nylon; 251 yds / 100 g)

2 balls, shown in color 206 - Glacier Bay

sett

8 epi x 8 ppi

equipment

11" or wider rigid heddle loom

8 dent heddle

2 stick shuttles

notions

waste yarn

directions

Warping

Set your warping peg approximately 110" from the back of your loom and direct warp using one complete ball of the Juniper Moon Cumulus Rainbow.

Note: If desired you can warp an additional 4-6 ends from the second ball to add width. If you do this be sure you are matching to the color repeat (ie. if you ended warping ball 1 on the dark side of the gradient, pull the additional ends from the dark side of the second ball)

The completed warp will be approximately 86 ends / 43 loops wide.

Note: it's not important that this is exact for this scarf. Just be sure you have used at least one full ball of Cumulus Rainbow to get the full gradient effect.

Weaving

Weave 1- 2" of waste yarn before continuing in plain weave.

Continue weaving with your second ball of Cumulus Rainbow until all of the yarn is used*. End by weaving 1-2" of waste yarn before cutting off the loom.

**when winding the Cumulus Rainbow onto your stick shuttles, wind half onto one shuttle and then half onto a second shuttle and begin weaving with the second shuttle first. This will preserve the gradient effect as you weave.*

Finishing

Tie off the warp in knot bundles of 4 ends each as you remove your waste yarn.

Handwash the finished weaving, blot with a towel to damp and dry in the dryer on low. Press with an iron trim fringes even.
