

KLER

Traviata
W153

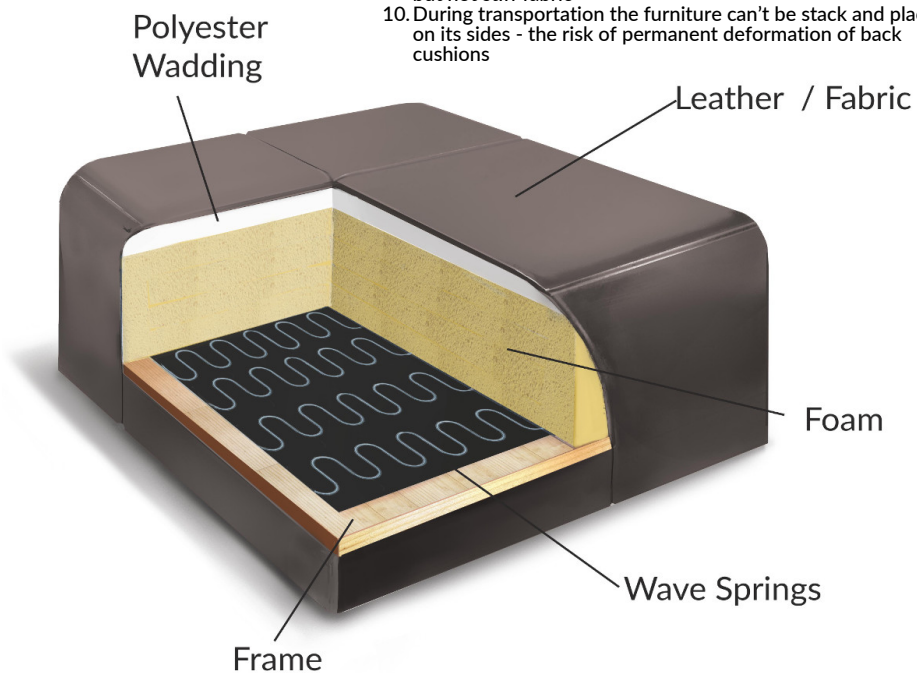

ADDITIONAL INFORMATION

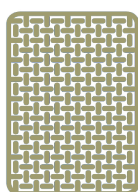

KLER

Traviata
W153

1. Foam density in seat: HR3020 + HR3040
2. Foam density in back: VP2315 + HR2808
3. Piped edge only in leather
4. Recommendation for TRAVIATA + Z144:
 1. Piped edge (zone 2) in contrasting colour to leather/fabric from zone 1
 2. Contrasting thread (op. 242) in piped edge always selected from the sample of contrasting threads in colour, which is the most similar to leather/fabric from zone 1
5. Quilted pillow Z144 can be produced only in fabric, but not stiff fabric (Alcantara). Its decorative thread only in leather with decorative stitching.
6. Upholstered feet - op. 195 or upholstered feet with decorative element:
 1. metal base in gold - op. 193
 2. metal base in chrome - op. 194
7. Possibility to produce in type of leather S2, S5, Prescott, S8
8. Not possible to produce in stiff fabric (Alcantara)
9. You can use patterned fabric (back cushion, seat cushion), but not stiff fabric
10. During transportation the furniture can't be stack and placed on its sides - the risk of permanent deformation of back cushions
