

RED CENTRE Lithium EP Grease**Product Description:**

REAL Lubricants RED CENTRE Lithium EP Multi-Purpose Grease is designed for a range of applications where anti-wear, surface adhesion and extreme pressure properties are required. Applications this product may be suitable for include general industrial, automotive, agriculture, wet, dusty, and muddy conditions.

Features:

- Good thermal stability helps to ensure lubrication of components is maintained.
- Anti-wear performance and extreme pressure properties provides protection to components.
- High surface adhesion and tackiness ensures adequate coverage to metal components.
- Water washout resistance helps to protect equipment in wet and muddy environments.
- Oxidation inhibitors help to prevent corrosion to metal components.

Specifications:

Appearance:	Red & Tacky
NLGI Grade:	2
Thickener Type:	Lithium Hydroxystearate
Base Oil Viscosity @ 40 °C (cSt):	300
Dropping Point (°C):	200
Operating Temperature Range (°C):	-20 to 120
