RING SIZING GUIDE

Method 1 - Measure an existing ring

1. Ensure this guide is set to print at 100% scale and that you are printing on standard A4 paper (210mm x 297mm). If you are unsure as to whether you have printed the correct size, or if you are measuring on a screen, place a credit card on the guide.
2. Place a pre-owned ring on the closest matching sized circle on the Ring Size Chart on page. The inner edge of the ring should be perfectly aligned with the outer edge of the circle. This will be your ring size.

Top Tips

1. **Size up when you are in-between sizes**

There are a few environmental and physical factors that should be taken into consideration before deciding on the size of the ring you want to buy, but remember that when it comes to guessing your partner's ring size, guess on the large side as it's easier to size a ring down.

2. **Keep in mind of average Ring Sizes of Woman**

Keep in mind the average ring size range for women is between US 5.5-7.5. If you have no other information available, it's best to choose between these ranges.

3. **Choose the correct time of the day**

An ideal time to measure their finger size is in the evening. Most people's fingers tend to be at their largest in the evening and smaller in the morning. Measuring your partner's finger size in the evening will guarantee a comfortable fit.

4. **Avoid optimal temperature**

Fingers tend to react to temperatures, and can change size depending on the weather. The cold winter air will shrink fingers while the opposite happens in summer or when it's warm and humid. Avoid measuring finger size outside in the very cold or very hot.

5. **Keep in mind of fingers expand and contract**

Other factors can cause fingers to grow such as exercising, water retention, pregnancy, ageing, and arthritis. Weight loss and low temperatures can cause fingers to decrease in size.

6. **Be aware of thicker bands**

Thicker ring bands (larger than 6mm) will fit tighter. It is advised to always go for half a size up when purchasing a thicker band, for the ring to be comfortable.
