BIRD OF PARADISE

Hiroataka's new "Bird of Paradise" collection highlights the playful charms of birds with colorful hand-painted enamel and golden details that mimic an avian eye.

Inspired by their metallic feathers, rapid eye movements and eccentric choreographed dances, the birds of paradise are exquisite magical creatures, both bizarre and beautiful. Their uniqueness is expressed through abstract shapes and pops of pink and green layered with diamonds and Akoya Pearls, adding a fun and unusual twist to everyday styling.
