

LANGFORD CANOE

# Frontenac

High Performance Symmetrical

The Frontenac 16' canoe is a masterpiece of refinement, crafted to perfection. With a half or "sister ribbed" White Cedar interior and a planked hull made from select Red Cedar, this canoe is as stunning as it is functional. Over time, the rich reddish hue of the Red Cedar darkens, creating a striking contrast with the brass tacks and Eastern White Cedar ribs.

Each hand-built hull tells its own unique story, with the natural variations in planking color adding to its beauty. The Frontenac features the finest lines of any canoe—effortlessly efficient and incredibly maneuverable.

"There's simply nothing that compares," is the refrain of everyone lucky enough to paddle this world-class 16-footer. With the Frontenac, you're not just paddling—you're experiencing a work of art.
