

MOUNTAIN BURGER

2023 SUSTAINABILITY

Energy use was responsible for

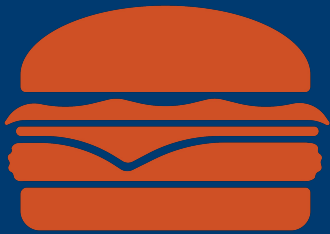

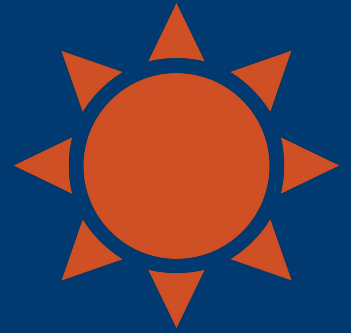

99.1

tCO₂e

40,540

KWH

of energy from
wind and solar

2.1

tCO₂e

avoided by composting

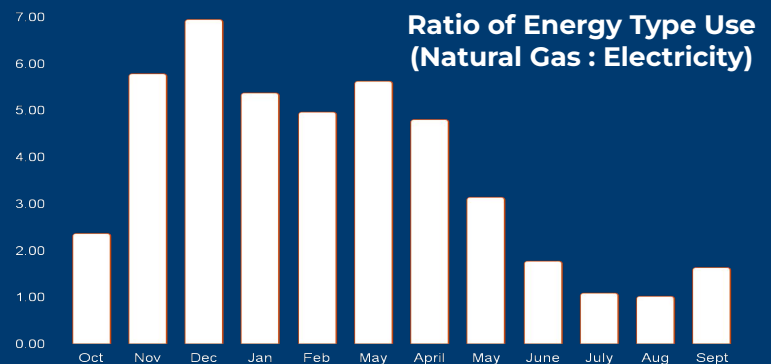

0.8

tCO₂e

avoided by recycling

Energy type usage changes seasonally... **how can we change too?**

What we did this year...

- Created an Environmentally Preferable Purchasing policy
- Started composting food waste
- Bought renewable energy
- Electrified the griddle
- ... And More!

What's next...

- Menu emissions labels
- Electrify appliances
- 100% renewable energy
- Reduce supply chain emissions
- Net Zero
