

IVG Disposable Vape Recycling Scheme

At IVG, we stand firmly behind the UK government's efforts to address the environmental challenges associated with disposable vapes, reflecting our dedication to sustainability. Together we aim to reduce the significant impact of discarded vaping products, contributing to a healthier environment for future generations.

IVG is proud to introduce the “IVG Disposable Vape Recycling Scheme”, our latest initiative dedicated to promoting the responsible recycling of disposable vapes.

How to dispose and recycle vapes with IVG?

Our customers are entitled to return their old or unwanted IVG disposable vapes to us when they have been purchased online. If this is something of interest, please, return it hassle-free via mail, with a minimal postage fee to our warehouse address below:

IVG Recycling, Unit 27, Campbell Street, Preston PR1 5LX

1. Empty the disposable vape by using it until it no longer produces vapor.
2. Safely dispose of the vape by placing it in a sealable plastic bag to prevent leakage. Please also ensure there are no bare wires and do not take the vape apart.
3. Place the sealed plastic bag containing the disposable vape into a padded envelope or small cardboard box. Only 1 unit can be sent at any one time.
4. Seal the envelope or box securely and affix appropriate postage for mailing.
5. Mail it to the designated recycling address above.
6. Complete the form below – and put in packaging to return.
