

Multiple Highlights Can't Say Enough

- Indoor outdoor&welding scene, Free switching
- Modular design Fast maintenance
- Can carry mechanical arm
- Welding technology Quick adjustment
- Wire feeding freely, Nonstick yarn
- 5/ 10m Armoring Cable Collocation at will
- No water tank Maintenance-free
- Offering Products Customized Services
- Industrial grade touch screen Click to operate
- Intelligent temperature control system

Experience Laser Welding 4-10 Times

<p>Fast speed (Welding speed 4-10 times faster than traditional welding)</p> <p>Good effect (Uniform pool, high consistency welds, swing width 6mm, easy to achieve wide welding)</p> <p>Easy to use (intelligent touch screen, built-in process parameters setting, no need for professional training, new worker direct use)</p> <p>Fast forming (high quality products, forming speed can be 2-10 times higher than traditional welding)</p> <p>Low energy consumption (80% energy saving compared to traditional welding, reducing production costs)</p> <p>Less harm (less splash, less polluting substances, eliminate strong electricity)</p>	 <p>Laser welding</p>	<p>VS</p> <p>Traditional welding</p> <p>Slow speed (welders need to constantly confirm details, prone to quality problems)</p> <p>Poor effect (The welding surface is prone to edge biting, porosity and cracks, and the fracture rate is high)</p> <p>Difficult to start (must be certified, electric welding, gas welding work slowly, high risk, slow to start)</p> <p>Forming slowly (poor weld forming, uneven surface)</p> <p>High energy consumption (large electricity consumption, relatively high processing costs)</p> <p>Many hazards (welding slag splashing, long-term use has health hazards)</p>

Air Cooled Laser Cutting & Welding

One key opens a new era of cutting & welding

Packing List

Anti-Splash Outer Corner Copper Nozzle x 1pc	Copper Nozzle Fixed Shaft (Thread / Scale) x 1pc
Anti-splash wire feeding copper nozzle 1.6 x 1pc	Copper wire feeding nozzle 1.0 / 1.2 / 1.6 x 3pc
Anti-splash outer corner wire feeding copper nozzle 1.6 x 1pc	Wire feeding clamp x 1pc
Small groove wire feeding copper nozzle 1.6 x 1pc	Protective glasses x 1set
Cutting Copper Nozzle x 1pc	Protective lenses D20T2 x 5pc
Safety clamp x 1pc	Fixing screws and nuts x 1set

There is always a suitable for you

						
	X2	X3	X4	X4H	X5	X6
	Extreme lightweight	Super cost-effective	Strength building	Great Radiator	Superstar	New Product Launch
Stainless steel	2mm (welding depth)	3mm (welding depth)	4mm (welding depth)	4mm (welding depth)	5mm (welding depth)	6mm (welding depth)
Aluminum	1mm (welding depth)	2mm (welding depth)	3mm (welding depth)	3mm (welding depth)	4mm (welding depth)	5mm (welding depth)

Air-Cooled Handheld Laser Cutting and Welding Series

A new Generation Of Hand held Laser Cutting And Welding

Self developed from Chips to Laser Engine Components

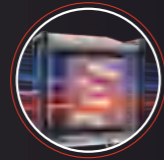

- High energy SC
- Efficient degree of stability
- Applied customization

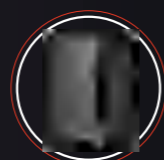

High performance laser chip

High quality air-cooled laser

High temperature resistance pump source

Portable air-cooled hand-held laser cutting welding machine

Star Housekeeper, Caring And Worry-free Tailoring your partner

36

36 built-in process parameter settings
Free to customize your own equipment

VIP

1v1 VIP
Personal s ervice

National training of
professional lecturer team

24 hours a day
7 days a week

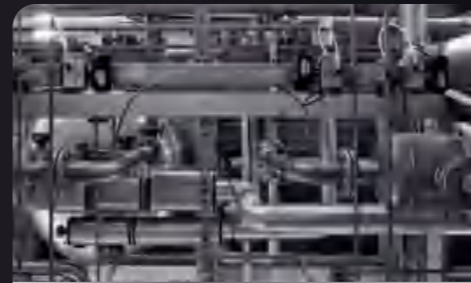

Wide Wange Of Cutting And Welding Applications

Hardware processing

Agriculture, household,
appliances

Construction, Engineering,
Mechanical

Aviation and
Transportation

Body in white
applications

New energy lithium

6 Core Advantages Let Welding Do What You Want

Advanced productivity
Technological
revolution

Easy to use and
good operation
Safe and secure

Lighter and smaller
More convenient

Without fear
Severe cold and heat

Surging engine
Enduring

Core technology
Leading the world

Air-Cooled Handheld Laser Cutting and Welding Series

X5 Super Star

Air-cooled hand-held laser
cutting and welding machine

- 5mm Speed penetration,
follow Xinghan challenge the limit of welding
- High speed stable continuous
welding,It' s ture

X3 Hot-selling

Air-cooled hand-held laser
cutting and welding machine

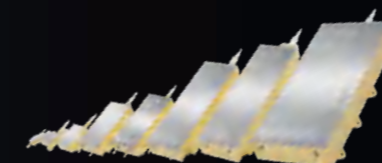

- Challenge the limit of stability
- Stable enough, high quality welding

Surging Power Time-tested

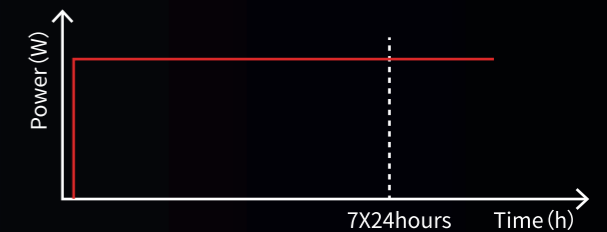

COHERENT Engine Strong Alliance

Surging power, the world's top high-performance COHERENT engine core
Strength self-developed laser engine, constant power, large penetration

7x24 hours UP continuous welding Stable work continuously wire

Welding starting power fluctuation $< \pm 3\%$

Nothing Can Stopped, Whether The Weather Is Severe Cold Or Heat.

-20°C~40°C

Global leader
in thermal performance

Applicable to global
multi-latitude environment

Intelligent
temperature control

Energy-saving,
silent and power-saving
