

Thrive is a unique combination of freeze-dried bovine organs sourced from 100% grass-fed and finished New Zealand cattle. It is formulated with a targeted blend of five different bovine organs, including liver, heart, pancreas, kidney, and spleen, that may help support nutrient status in the body.*

Each 6-capsule serving provides 1 g of bovine liver and 500 mg each of bovine heart, kidney, pancreas, and spleen in a convenient capsule delivery. bio-avail organ is a good source of iron, providing 3 mg (15% daily value) per serving, and it contains 3 g of protein per serving. This formula may help fill in the nutritional gaps for individuals who are following a standard American diet, and is ideal for individuals following a carnivore or paleo-style diet, or for those who have difficulty preparing and eating fresh organ meat.*

Highlights

- Freeze-dried bovine organs sourced from 100% grass-fed, grass-finished, and free-range New Zealand cattle.
- Provides 1 g of bovine liver per 6-capsule serving
- Good source of iron (3 mg per serving)
