

## Provides Immune Support, Respiratory Support, and Supports a Healthy Response to Allergens.

Quercetin is a flavonoid antioxidant that has been shown to have immune-supportive properties. It may support the immune system by increasing the production of antioxidants, stimulate the production and activity of certain immune cells, aid in promoting gut health, support a healthy response to inflammation in the airways and lungs, and improve the function of the epithelial barrier in the respiratory tract.

- Available with 500mg or 750mg of Quercetin.
- 100 mg of Vitamin C.
- 11 mg of Zinc.
- Gives your immune system extra support.
