Critical-thinking and Creative-thinking Questions

Answers

To the Teacher

Thank you for downloading the free supplementary tests for *Easy English NEWS*. I hope these will save you many hours of work each month and will help expand your students' reading skills, vocabulary, and retention of important information.

Each month's *Cloze Exercises and Short-Answer Tests* will be posted at the website by the first of the month, if not earlier. Many of the tests are useful with or without *Easy English NEWS*.

There are dozens of ways to use the tests. Experiment to see the methods that work best for your classes. Some techniques will be better for students with less command of English, and others appropriate for those with greater fluency. You can alternate the ways you use them to provide more variety in lessons.

CLOZE EXERCISES

The purpose of the cloze exercises is to present a small amount of important material in another format to enhance comprehension and retention, and reinforce vocabulary.

- The cloze exercises may be used before or after reading the article. The exercises are taken directly from articles in the paper so students can check their own or others' work by referring back to the articles.
- If you assign a cloze exercise before reading the article, it serves as an introduction to reading the full article. Use this with students with better reading ability.
- To increase the challenge, cut off the word bank at the bottom of the page before duplicating the cloze exercises. Students can work individually, or in pairs or small groups. They can use their newspapers or not.
- As a spelling test (and listening exercise): Dictate the sentences including the missing word for the students to write in.
- As copy practice: Students can copy the entire selection, filling in the missing words.
- As capitalization practice: Words in the word bank

are intentionally not capitalized unless it is a proper name. Students can practice capitalization by adding capital letters where it is necessary.

WHICH WORD DOES NOT BELONG?

Vocabulary, logic, and discussion practice. Students read the four words in each row, and decide how three of the words go together and one does not. There might be more than one possible answer in each group of words.

- Have students circle their choices, and then discuss them. Students should be able to give their reasons for choosing a word that doesn't belong. *Any good reason makes their answer correct.*
- Students can work in small groups to discuss the reasons for their answers. They can write out their reasons for the decision.
- Teach the patterns:
A, B, and D are all _____s.
C is not a _____.
Or: B, C, and D are all kinds of _____. A is not.
Or: You can find A, B, and C in a _____. And so forth.

SHORT-ANSWER TESTS

These tests focus on fact-gathering.

- You may give these tests as pre-tests to learn what students already know about the topic and again as post-tests to see what they have learned.
- After reading the article, students can read the questions aloud in class and give the answers orally.
- You can let the students do the tests as open book (newspaper) tests.
- Students can work in pairs or groups to come up with the answers after having read the article.
- Students can use the Answer Page to correct their own or others' answers.
- You can give the same test a week or more later to evaluate students' retention of the information.

Name _____ Date _____

A New Treatment

Some diseases _____ from person to person through viruses or bacteria. Some diseases are _____. These genetic diseases come from _____ or changes in people's DNA before they are even born. Genetic diseases can be hard to treat and _____ to cure. One of these genetic diseases is _____ cell disease.

Name _____ Date _____

Critical-thinking and Creative-thinking Questions

Choose one or more of these questions. Work with a partner or a small group to discuss or research these questions and report to the class.

1. Gene therapy is a new way to help people with sickle cell disease. Doctors hope it may help people with other genetic diseases in the future. Do you think this technology is good or bad? Why do you think that? How might changing DNA help or hurt people?
2. Work with a partner to practice the abbreviations from the article. Pick 10 abbreviations and decide how you might use them in an advertisement. Would your ad be for a job, service, or item you want to sell? What information would you put in the ad? How would you use abbreviations to make your ad? Share your ad with your classmates and see if they can read and understand your ad.
3. Make a list of New Year's Resolutions. Look at your list. Which resolutions will be easy to keep? Which resolutions will be harder to keep?
4. Martin Luther King Jr. worked hard for civil rights. Communities all over the country celebrate him in January. How does your community celebrate him? Think of ways you could celebrate him in your home or at school. Report your ideas to the class.
5. Listen to Martin Luther King Jr.'s *I Have a Dream* speech on YouTube. What do you think about his dream for the country in 1963? In 2024, has his dream come true? Why or why not? What are your dreams for your life? What are your dreams for our country?
6. How is the leader chosen in your home country? Who has the right to help choose that leader?
