FROM **AED 350/-**

Custom AirPods Pro Plug

Fidelity ear tips bring a custom fit to AirPods Pro

AirPods plugs provide a personalized and comfortable listening experience, improved sound quality, enhanced noise isolation, and greater stability during movement.

STARTING FROM **AED 450/-**

EAR IMPRESSION ONLY

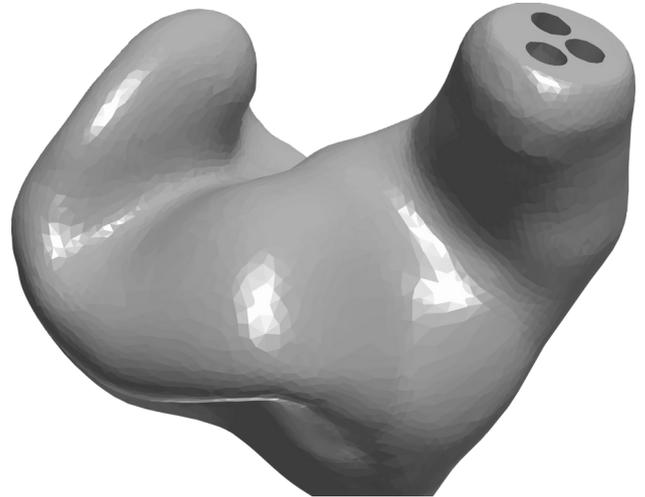

An ear impression is a crucial step in the creation of custom-fitted ear products designed to enhance comfort, improve hearing, and protect the ears. It provides a precise mold of the individual's ear anatomy, facilitating the production of high-quality, personalized ear solutions tailored to specific needs and preferences.

PRICE **AED 250/-**

EAR IMPRESSION 3D FILE

Ear impression 3D file serves as the digital blueprint for creating custom-fitted ear products tailored to the unique anatomy of an individual's ears. It enables manufacturers to produce high-quality, comfortable, and effective ear solutions that meet the specific needs of each user.

PRICE **AED 100/-**

HARD & SOFT MOULD

The choice between hard and soft ear molds depends on the specific requirements of the application and the individual's preferences for comfort and durability. Hard molds are suitable for applications where rigidity and stability are important, while soft molds offer superior comfort and flexibility for everyday use.

PRICE **AED 450/-**
