INJECTABLES

DERMAL FILLER

Made of hyaluronic acid, our fillers are naturally antioxidant rich. Dermal Filler can be used in your choice of multiple areas of the face to increase volume and/or hydration. There are many types of dermal fillers and they are all made for different areas of use. Medium filler is used mostly for lips, it is to be long lasting and durable with the amount of movement that it has to endure. Thicker fillers can be used for the cheeks and jaw, they are again, to be long lasting but unlike lip filler, need to stay still and mimic bone. On the other end of the spectrum there are fine fillers, which are a light constancy. These can be used under the eyes. An even lighter filler (called skin booster) is used for skin hydration and does not add volume at all. It increases the hydration and integrity of the skin in which it is injected.

Lips to LOVE

45min | \$489

1ml Dermal filler especially for your smoochy lips.

1/2ml Lip Filler

45 min | \$299

0.5ml is a great introductory filler amount for first-time lip filler clients, especially if you're nervous of what the result will be. It's also great for a little top-up or a hydration boost

Filler Dissolver

45 min | \$399

Hyalase is a product which is able to dissolve the most common type of dermal fillers. If you are unhappy with your dermal filler results or want to start fresh, our clinic offers dermal filler dissolving.

1ml Dermal Filler

45 min | \$499

1 ml of hyaluronic acid, natural antioxidant rich dermal filler. Can be used in your choice of multiple areas of the face to increase volume and/or hydration.

INJECTABLES

DERMAL FILLER

2ml Dermal Filler

45 min | \$849

2 ml of hyaluronic acid, natural antioxidant rich dermal filler, can be used in your choice of multiple areas of the face to increase volume and/or hydration. 2ml is generally needed for cheeks. This package can be pre-paid and used in two separate appointments to achieve best results.

Skin Booster 1ml

45 min | \$249

Skin Boosters are micro-injections of dermal fillers in the skin. Unlike traditional dermal fillers, they are not injected beneath the skin to volumise or shape the face. Instead, they are very fine dermal fillers that are injected into the skin to hydrate and improve skin quality.

Jaw Rejuvenation

60 min | \$1290

This treatment is a non-invasive solution for anybody who has ever been a little insecure about the lower half of their face, or those who have lost volume in this area over the years. People of all ages and face shapes seek out jaw fillers. Why? Because it's effective, long-lasting and 100% worth it. A combination of Jaw filler and PDO threads to give a snatched Jaw.

price is indication only. each treatment is tailored to you and your individual needs, therefore price can vary

Undereye Rejuvenation/PRP

45 min | \$499

A PRP skin treatment uses your own blood to promote collagen and blood factors. PRP works by literally drawing on your own blood (hence the name 'vampire') and extracting platelets to use on the skin. Platelets are the component of our blood that help to heal damaged tissue by producing new collagen and elastin and regenerating cells. PRP is a safer and more natural result to traditional tear trough filler

INJECTABLES

ANTI-WRINKLE

Anti-Wrinkle

From \$12.90

The most common use of anti-wrinkle is to reduce the appearance of face wrinkles. But it can also help treat other conditions, such as:

- Severe underarm sweating (hyperhidrosis)
- Cervical dystonia, a neurological disorder that causes severe neck and shoulder muscle spasms
- Chronic migraines
- Overactive bladder

Anti-Wrinkle is charged per unit. It is a scripted service, lasts 3-6months per treatment and takes 5-14 days to start working from treatment.

Brow Lift

15 min | \$79

Want a slightly lifted eyebrow? maybe some more shape? this is for you!

Lip Flip

15 min | \$79

The injection of anti-wrinkle temporarily relaxes the muscles around your lip. This causes the part of your upper lip that's inside your mouth to “flip” upward and outward, giving your lip a fuller appearance. It is a great procedure for those that have a top lip that disappears when they smile.

Facial Slimming

30 min | \$449

Anti-wrinkle is used in the masseter muscle (along the jawline) in 4 injection points to achieve a slimmer facial aesthetic. This treatment is also great for those who grind their teeth or find themselves with a constant clenched jaw.

Gummy Smile Reduction

15 min | \$79

Do you show more gum than teeth when you smile? this is the anti-wrinkle treatment for you! by relaxing the muscle above the lip line, the anti-wrinkle can help to minimise the gum line that can be seen when smiling.

Hyperhidrosis (Underarm Sweating)

30 min | \$950

Stop excessive sweating with anti-wrinkle injections!

INJECTABLES

PDO THREADS

Polydioxanone (PDO) threads are a special medical grade thread that is thinner than hair, made of protein.

Research has confirmed that PDO relaxes tendons and muscles, whilst a foreign body reaction improves the blood flow to the area stimulating neocollagenesis (the production of new collagen in the skin).

By inserting PDO Threads at a sub-dermal level we are able to both stimulate and enhance collagen synthesis, subsequently producing a gradual tightening, thickening and rejuvenation effect.

PDO Threads address concerns of general skin elasticity, sagging and creasing. Results are typically seen at 6 weeks with continued improvement over 2-6 months. The effects last up to 12 months. Over time, the body will naturally absorb the threads.

- PDO Threads differ from 'thread lifts' which are more invasive and risky.
- PDO Threads will NOT give you the fox eye/extreme face lift effect

Treatments are subject to a consultation which are always carried out to ensure this treatment is right for you

Smile Lines	30 min \$899
Lip Lines	30 min \$599
Nasolabial	30 min \$599

INJECTABLES

PRP

While it's commonly known as the 'vampire facial' the correct medical term for this type of procedure is Platelet-Rich Plasma (PRP) Treatment.

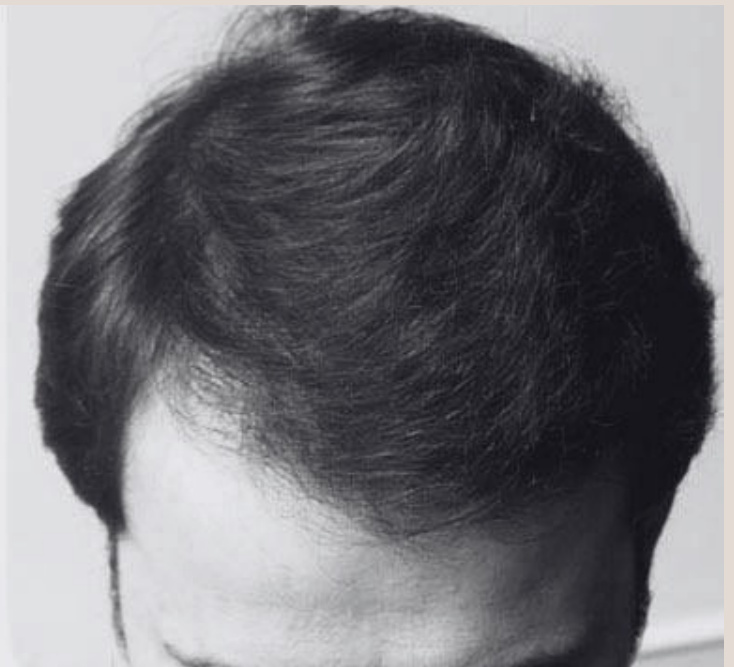

PRP is a treatment with seemingly endless areas for application, it can be used to turn back the clock on ageing, for acne, scarring, hair loss, or it can even be used for injection therapy to treat sporting injuries.

A PRP skin treatment uses your own blood to promote collagen and blood factors. PRP works by literally drawing on your own blood (hence the name 'vampire') and extracting platelets to use on the skin. Platelets are the component of our blood that help to heal damaged tissue by producing new collagen and elastin and regenerating cells.

PRP is now commonly used topically along with microneedling to enhance penetration into the skin, but it can also be injected into the skin in the same way as dermal fillers (known as vampire facial injections).

PRP Treatment

60 min | \$799

INJECTABLES

FAT DISSOLVER

The launch of fat dissolving injections has many excited. Now we can finally get rid of stubborn fat that just won't budge, no matter how hard we exercise, or how healthy we eat. Fat dissolving injections can help you to achieve a slimmer, more contoured body shape, with long-lasting results of between two and four years. The results are even longer if you maintain a healthy diet and regularly exercise.

Our sculpting injections contain a synthesised deoxycholic acid which occurs naturally in the body and aids in the breakdown and absorption of dietary fat and phosphatidylcholine (PC) this is a natural compound derived from soybean. Both are safe to use and are naturally broken down by the body over time.

Treatments are subject to a consultation which are always carried out to ensure this treatment is right for you

Fat Dissolver - First Treatment

45 min | \$949

Fat Dissolver- Subsequent Treatments

45 min | \$649

LASER

TATTOO REMOVAL

LUX Series tattoo removal devices work by utilising a high powered Q-Switched Nd:YAG laser known for their outstanding ability to remove a variety of tattoo inks. The light is aimed at the unwanted tattoo, and then applied to the skin in pulses. This process allows the tattoo to absorb the light, which in return shatters the pigments into tiny fragments. The fragments are then removed by the body natural filtration system. The result leads to permanent fading of the tattoo, or removal of the tattoo altogether.

Tattoo Removal Explained

1. Tattoo ink is covered by a layer of melanin.

2. A highly focussed laser rapidly delivers a beam of light to the darker tattoo area

3. When the laser strikes the tattoo ink, it shatters into fine particles

4. The shattered particles are dispersed through the body's natural filtration (lymphatic) system

Tattoo Removal is recommended to have 4-6 weeks between treatments.

Prices start from \$99

This treatment is subject to a confidential consultation where we can discuss a personalised treatment plan and treatment quote

LASER

PHOTO REJUVENATION

Test Patch & Consultation

15 min | \$50

Although modern lasers and IPLs are extremely safe, a patch test and full medical history is an essential pre-requisite of any laser and IPL treatment. The patch test is used to determine the safe and effective settings that can be used on your skin type.

The test patch and consult must be performed 24hrs before treatment. cost of appointment is redeemable on first treatment

Vascular Removal

30 min | \$99

Capillary Removal is the treatment of an individual dilated capillary using laser energy to target the blood supply within the vessel. The heat from the laser can collapse the capillary wall, causing the vessel to shut down on itself. Your body will naturally eliminate the capillary vessel via the lymphatic system. Our Vascular Lesion Removal specifically targets broken capillaries, spider veins (not blue veins), and angiomas present on the facial and body area.

Acne Treatment

30 min | \$129

Intense Pulsed Light (IPL) treatment uses yellow, green and red light emitted through a series of impulses onto the skin. The yellow and green light acts to kill the bacteria that cause acne and live in the skin, while the red light targets the sebaceous glands, stopping them from producing too much sebum.

Carbon Facial

45 min | \$149

The laser carbon facial (aka China Doll Facial) is a fast and painless procedure done to help improve the look of skin. Laser carbon facials deeply exfoliate skin and also helps stimulate collagen production.

Pigment Removal - Full Face

30 min | \$129

Pigment Removal - Spot Treatment

15 min | \$49

For Pigment Removal we will need a doctors certificate that you have had a recent skin check on the area being treated

LED

Multi-Award winning Dermalux® LED Phototherapy is the leading, noninvasive treatment that harnesses the power of natural light for visibly radiant, rejuvenated and refined skin.

The wonderful fact about Dermalux is we are able to treat most skin types. One treatment instantly energises skin cells to revitalise a dull and tired complexion.

However, we recommend a course of treatments as it offers longer lasting visible results, stimulating the skin's natural rejuvenation and repair processes to speed up cell renewal, resolve problem skin conditions and promote vibrant healthy-looking skin.

Drop In LED

30 min | \$39

Come in with clean dry skin (no creams) and jump straight under our LED! Perfect for the quick lunch-time fix for red, irritated, sensitive or acne skins.

LED Glow

Maximise the results of your treatments with a Dermalux Enhancer. Upgrade any treatment with a 30-minute intense light boost to supercharge cell metabolism for superior treatment results and increased healing time with longer lasting effects

LED Power Plan

\$399 | \$599 | \$799

Pay for 10 treatments and get 2 free!

SKIN TREATMENTS

Microneedling

Microneedling is a dermapen procedure that uses small needles to prick the skin. The purpose of the treatment is to generate new collagen and skin tissue for smoother, firmer, more toned skin. Microneedling is mostly used on the face and may treat various scars, fine lines, and large pores. It can also be done to treat other scarring including stretch marks! To boost results with your microneedling we offer a PRP upgrade.

1x Microneedling Session

45 min | \$299

3x Microneedling Sessions

45 min | \$799

Price Includes a small take home pack of skincare products needed in the days following this treatment

Skin Booster 1ml 45 min | \$249

Skin Boosters are micro-injections of dermal fillers in the skin. Unlike traditional dermal fillers, they are not injected beneath the skin to volumise or shape the face. Instead, they are very fine dermal fillers that are injected into the skin to hydrate and improve skin quality.

Customised Treatment Plans

Are you getting married? or maybe you just want to kick start your skin journey! We offer customised treatment plans according to your time frame and budget. Contact us for a consultation!

PEELS

Lactobotanical Peel

30 min | \$99

Containing the power of Lactic Acid to give skin a hydration boost and to visibly enhance the appearance of skin and target fine lines and wrinkles. Available in varied strengths to suite your individual skin needs.

Problem Skin Peel

30 min | \$99

A Salicylic Acid based peel with the incorporation of anti-acne systems to relieve congestion and remove dead skin cells, whilst evening oil flow and killing acne bacteria, healing and resurfacing your skin.

You must prep your skin with our AHA/BHA cleanser for minimum of 2 weeks prior to this peel

Pumpkin Peel

30 min | \$99

Primary Pumpkin Resurfacer was designed to meet the needs of those with acne concerns, congestion and enlarged pores. The antibacterial effect of salicylic acid helps to prevent and treat acne for those prone to breakouts. The lactic acid in this treatment not only adds hydration on an epidermal and dermal level but also improves skins tone and texture.

Salacylic Peel

30 min | \$99

This high-level peel uses 30% oil loving salicylic acid to target blemish causing bacteria resulting in the release of hardened sebum. Recommended for those with thick rough textured skin, aggressive acne concerns, and hyperkeratosis.

You must prep your skin with our AHA/BHA cleanser for minimum of 2 weeks prior to this peel

Pigment Peel

30 min | \$99

Address the appearance of age spots and pigmented areas to illuminate and even out skin tone. A corrective treatment targeted to your greatest skin concerns. This treatment is not recommended for pregnant or lactating women.

You must prep your skin with our AHA/BHA cleanser for minimum of 2 weeks prior to this peel

PEELS

Deep Sea Peel

45 min | \$199

The Deep Sea Peel is a unique, acid-free Level 3 Face Peel through the physical penetration of marine-based ingredients deep within the epidermis. This initiates a complex array of biological responses resulting in cellular renewal and regeneration. Best for: Pigmented skins, including Melasma, scarred or rough textured skin. Great for treating sun damage on the face or chest. The Deep Sea Peel does not contain Retinol making it an excellent option for those concerned with sun sensitivity. Expect up to 7 days of shedding following this peel.

Cosmedix Timeless Peel

30 min | \$99

Containing Retinol (Vitamin A), which is the powerhouse of anti-ageing, and stimulating Lactic Acid, the Timeless Retinol Peel by Cosmedix is an intensive Level 3 Face Peel that works more deeply within the layers of the skin to improve tone and texture.

Your skin must be prepped with one of our Vitamin A serums prior to having a Timeless Retinol Peel. Our nurse or therapist will advise the best peel to treat your specific skin concerns on the day of your appointment

Power Peel

30 min | \$299

Aspect Power Peel is a unique three step peel system that contains a powerful blend of actives including Kojic Acid, Mandelic Acid, Glycolic Acid, Salicylic Acid, Retinol and Emblica that work synergistically to deliver improved skin texture, clarity and visibly brighter skin. Best for pigmented skin or those who feel they lack lustre.

Peel Add-On

From \$69

Customised Peel added on to any facial treatment

HYDRAFACIAL

HydraFacial

30 min | \$239

What is a HydraFacial?

HydraFacial is a no-downtime, 3 step non-surgical skin resurfacing treatment that achieves the results of an advanced facial in just 30 minutes. The secret to HydraFacial is a patented spiral tip that can simultaneously exfoliate, clear blocked pores and deliver nourishing serums. Immediately after treatment you will see an instantly noticeable improvement in skin tone and texture.

HydraFacial delivers long-term skin health and can be tailored to meet the specific needs of all skin types. The treatment is soothing, refreshing, non-irritating and immediately effective.

Step 1: Cleanse & Peel

Step 2: Extract & Hydrate

Step 3: Fuse & Protect

HydraFacial is gentle enough for even sensitive skin yet effective enough to deliver powerful and positive changes in your skin. In addition to improving skin tone, texture and overall skin health HydraFacial also addresses skincare needs such as:

- SKIN TEXTURE
- ENLARGED PORES
- BROWN SPOTS
- FINE LINES + WRINKLES
- OILY/CONGESTED SKIN
- EVEN TONE + VIBRANCY

Your physician or skincare professional may choose specific treatment serums and/or customize the treatment for your unique skin conditions and needs.
