Painted Smooth Fiberglass Door with 3/4 6-Lite SDL Baroque glass

3/4 LITE SDL MISTIFY GLASS

Fiberglass Door Units Include:

- 4 9/16" FameSaver® primed jamb with brickmold and ball bearing hinges
- Articulating mill finish sill

Primed Steel Door Units Include:

- 4 9/16" Primed jamb with brickmold and standard hinges
- Composite adjustable mill finish sill
- Articulating mill finish sill on any non-single door style.

All Units Include:

- Hinges: Colonial Bronze, Satin Nickel, Dull Brass or Bright Brass.
- Lock Prep: Double bore

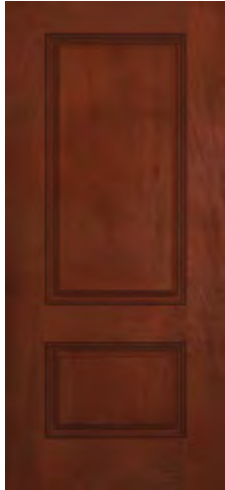

FIBERGLASS DOORS

Wood Grained Collection

Created to resemble the beautiful, natural look of real mahogany, oak or fir woodgrains, our fiberglass doors have high-definition panels with wider profiles to provide more depth and authenticity than traditional fiberglass doors. Also, they won't warp, dent or rust.

FIBERGLASS DOORS

Smooth Fiberglass Collection

Formed with high-definition panels and wide profiles, our Smooth Fiberglass doors feature a light paint-brush-stroke texture that can be painted any color, without presanding or scuffing the surface, and they won't warp, dent or rust.

STEEL DOORS

Traditional Primed Steel

Strong, durable, and stylish, our primed steel exterior doors offer safety and security, with a broad selection of designs. Featuring 24 ga. galvanized steel facings, they are factory-primed for easy finishing. An epoxy-primed back panel prevents corrosion. Our steel doors include energy efficient core option.

Beveled Glass SDL Option

The beauty of beveled glass and coming combine for a distinguished take on traditional simulated divided lites.

Each piece of beveled glass is secured with coming for the beautiful look of a true divided light, with the efficiency of a single glass lite.

Four Standard Styles

● 6-LITE FULL GLASS ● 8-LITE FULL GLASS ● 4-LITE 3/4 GLASS ● 6-LITE 3/4 GLASS

3/4 and full glass sidelights with either 2 or 3 lights are available to complete your opening.

● Special order glass

Traditional Style Grilles with Clear Beveled Glass

WHITE TAN

The Evolve glass light frame & SDL's may be painted or stained to match other finish elements.

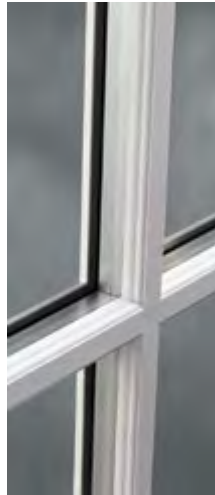

The traditional Simulated Divided Lites (SDL) are injection moulded into the Evolve Frame to eliminate the need for the separate application of SDL bars. This all-in-one design provides a better flush-to-glass fit and aesthetics.

SDL & GLASS OPTIONS

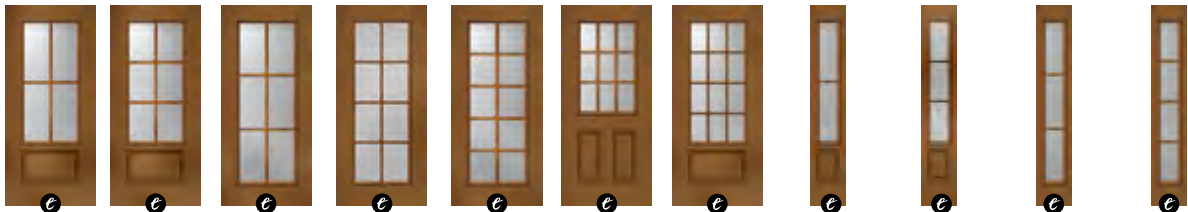

CLEAR FULL GLASS 6-LITE SDL

The look of a true divided light, with the energy efficiency of a single light. A mill finish grille between glass, and backing strips for a true wood muntin appearance.

Low-E Clear with Traditional 1-1/8" External Grille (SDL) and 7/8" Internal Grille.

Available in White or Tan.

PERSPECTIVES GLASS OPTIONS

Textured Privacy Glass

BLANCA

Offering a high level of privacy and an understated backdrop, Blanca has a frosted, slightly stippled surface.

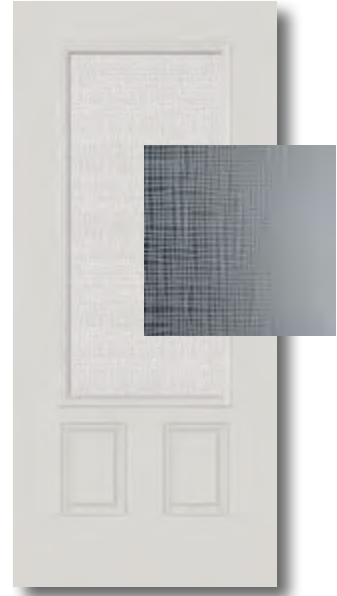

CHINCHILLA

As touchable as its namesake, Chinchilla's fine lines and organic, fur-like texture create a striking wave pattern when viewed from afar and offers a high level of privacy.

CUMULUS

Whether soft wisps of clouds or a 30,000-foot view of mountainous terrain, Cumulus takes a view from afar and brings it down to earth in your entryway door while offering a high level of privacy.

LINEN

Reminiscent of a soft shirt or an elegantly embroidered linen tablecloth, Linen's lightly etched glass and woven pattern complement casual or formal entryway designs. The translucent white glass and soft moiré of Linen's threads give it a high privacy level.

MICRO-GRANITE

Just as its name implies, Micro-Granite blends texture and pattern to create a surface reminiscent of small textured polished pebbles and provides a high level of privacy.

RAIN

All that's missing is the pater of raindrops. Rain features a vertical pattern and textured surface that create the illusion of rain trickling down a window and offers a high privacy level.

STREAMED

The pronounced vertical pattern and strong ribbed texture of Streamed creates the illusion of the organic flow of water in your entryway while proving a high privacy level.

VAPOR

Reminiscent of Northern Lights, Vapor creates an ethereal play of light and shadow and a medium level of privacy for your entryway.

UNLIKE ANY OTHER DOOR FRAME DURABILITY MEETS MAINTENANCE-FREE

Fusing together the benefits of composite and wood-based door frames, FusionFrame® delivers the strength and performance you need in one innovative solution.

Deflection Managed

FusionFrame's® rigid FrameSaver® core stands strong to prevent warping and bowing, delivering the trusted and proven strength of wood-based door frames. The rigidity of FusionFrame® delivers the support required for storm door installation even when the temperatures are high.

Hinged Patio Doors. Sidelights. It's All Good

With a rigid engineered core, FusionFrame® mulls stand strong and straight while eliminating concerns with thermal bow.

No Wicking. No Rotting

FusionFrame® features FrameSaver® the rot-proof door frame line with composite bottom that will not wick or rot providing a long-lasting maintenance-free frame system.

FrameSaver® FusionFrame®

A BETTER INSTALL - WITHOUT LIMITATIONS

Bridge the Gap FusionFrame's innovative brick mould design can be adjusted to fit flush against the house, despite rough opening conditions, while keeping the door frame plumb.

Blemish-Free Installation. FusionFrame's removable jamb stop and brick mould allows for concealed fasteners providing a professional, prefinished and flawless appearance.

FusionFrame® is available with prefinished white or stainable or paintable textured finish, delivering the convenience of a field-ready product or the freedom to finish to meet your specific needs.

Finish your opening design by selecting either a traditional brick mould or flat casing style exterior trim.

AN OPENING SYSTEM TO PROTECT YOU

Performance from an engineered system of components to protect your home from the elements

FrameSaver®

LIKE WOOD. ONLY BETTER.

Builders demand products that will resist rot and reduce costly repairs. Endura's FrameSaver® jamb protects the base of the exterior frame with a revolutionary wood composite material so resistant to rot and damage, they guarantee the frame for life with a transferable lifetime warranty.

Z-Series Sills

STANDARD ADJUSTABLE SILL SOLUTION

Endura's Z-Series sills provide the best combination of performance and value. These technologically advanced sills are made up of all-composite substrates and synthetic caps and nosing. These integrated materials prevent the sill from rotting, warping or deteriorating over time.

Weather Sealing

A SIMPLE SOLUTION

A two-step weathering system that starts with PE650 enhanced performance weatherstrip that goes far beyond the traditional. Q-LON® seals to close the gaps against air and moisture. Then a corner compression seal that is designed to seal the door's weatherstrip at the crucial corner preventing water from percolating up and over the threshold finishes the weather barrier.

ARTICULATING SILL SOLUTION

In addition to the benefits of the adjustable sill, the Z-Articulating Cap Sill automatically adjusts delivering consistent protection against leaks, drafts and insects, even when conditions aren't perfect or change over time.
