

## Inventory Saver System efficient and organized shelf management

Manage your shelf space and inventory with the 176D Series Inventory Saver System

### Advantages and Benefits

- Reduces costs by lowering replenishment purchases of unnecessary inventory.
- Minimizes stocking labor and inventory rotation requirements.
- Better shelf facing and allocation alignment improves customer experience—no need to reach deep into shelves for products.

### Features

- **Rigid PVC plastic 'L' design**—provides a false back that helps minimize the amount of inventory sitting on a shelf.
- **Strong magnetic tape attachment** ensures firm contact to metal shelves. Prevents the 176D from shifting its position on the shelf and reduces the ability for stock persons to adjust its set position.
- **Versatile design** works for most shelf applications—easily accommodates varying inventory allocation required by product turnover speed.
- **Easy to install and maintain**—no additional fasteners or tools required.
