

# FlexKlip® Small Shelf Adapter

## For Refrigerated Bullnose Shelving and Double Wire Applications

Some shelving in coolers and freezers don't have a price channel to hang your price tags and shelf talkers. The FlexKlip® Small Shelf Adapter is a **semi-permanent molding** that installs over your existing shelf to create a **price channel**.

You can use sign clips directly in the price channel or you can combine it with a **FlexChannel® Clip-In Ticket Molding** for overall **SKU reduction** for your ticket molding program. FlexKlip® shelf adapters are designed to stay on the fixture as the clip-in molding is replaced when needed.

Replace expensive, metal price ticket molding add-ons with FlexKlip® adapters to implement your shelf edge ticket molding program.

## Features

- Shipped as one piece
- Groove for bending and splitting apart into two pieces
- Ratchet allows height variance for installation
- Grip beads prevent molding from sliding side to side
- Made with thicker PVC plastic for durability
- Price channel fits 1.25" H price tickets, FlexChannel® ticket moldings, and other sign accessories
- Fits shelves 0.75" H to 0.90" H

## FlexKlip® Compatible Fixtures
