

FlexKlip® Dual Angle Shelf Adapter

Installed on top shelf

Installed on bottom shelf

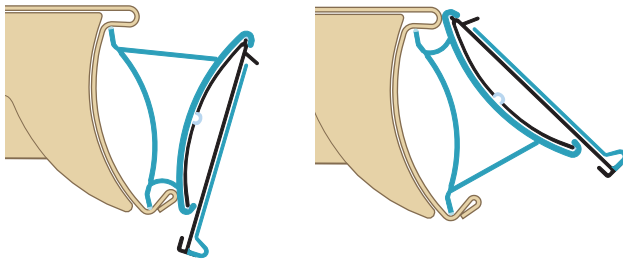

Angled for Top and Bottom Shelves

The FlexKlip® Dual Angle Shelf Adapter **increases accessibility** by making price tags and shelf talkers easier to view. One shelf adapter can be used for **both top and bottom shelves**.

The PVC plastic molding is a more **economical alternative** to metal ADA shelf adapters. Combine the FlexKlip® adapter with a **FlexChannel® clip-in ticket molding** to protect and display your paper price tags. The shelf adapter is a **semi-permanent molding** on the shelf, just replace the clip-in ticket molding when needed.

The FlexKlip® Dual Angle Shelf Adapter ensures that all of your customers can easily read your price tags and shelf edge signage while helping you **reduce SKUs** in your ticket molding program.

Shown combined with 278T FlexChannel® Clip-In Ticket Molding

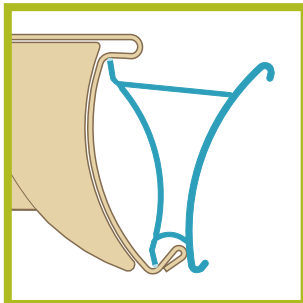

Features

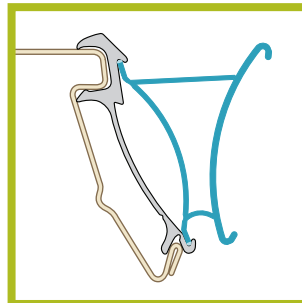

- Fits in **1.16-1.23"H price channels** in up or down position
- Made with thicker **PVC plastic** for durability
- Flexible back leg allows for easy installation and absorbs impact from shopping carts and pallets
- C-channel fits 1.25"H price tickets, FlexChannel® ticket moldings, and other sign accessories
