

# kostklip® Ticket Moldings

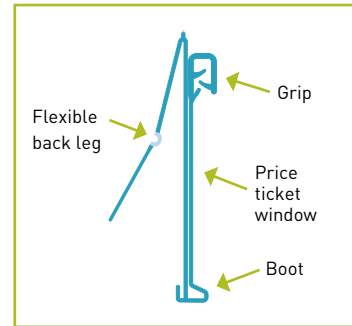

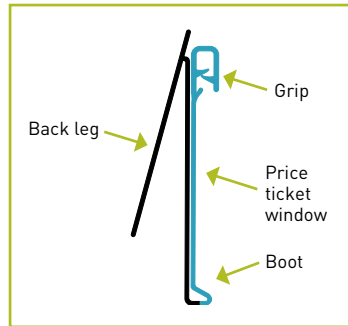

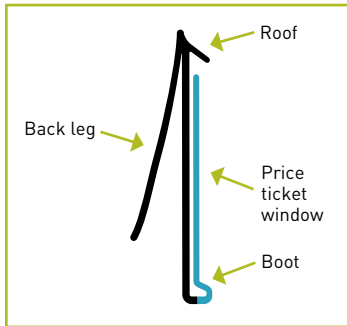

## HOW TO USE THE FIXTURE REFERENCE GUIDE

Ticket moldings hold price tickets along the edge of a shelf and provide a clean, uniform look to your store. Kostklip® has a variety of ticket moldings for different fixtures and shelving manufacturers. Use the Fixture Reference Guide on the following pages to identify the shelf fixtures in your store and the corresponding ticket molding.

**Yellow for ClearVision®** –  
Has a clear, flexible window that holds, protects and displays paper price tickets.

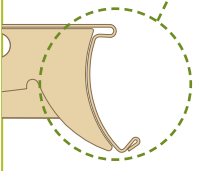

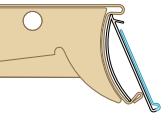

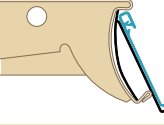

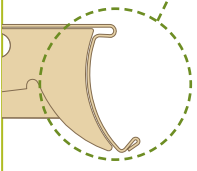

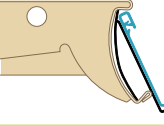

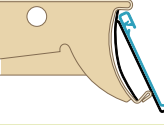

**Teal for ClearGrip™** –  
Has a clear, flexible window for paper price tickets and an additional grip for quickly hanging shelf talkers – signs stay in place in coolers and freezers!

**Red for Flex Series** –  
Has a flexible back leg to work with multiple C-channel sizes and a clear, flexible window to display price tickets.

Look for your shelf fixture in the first column.

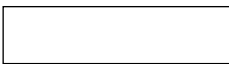

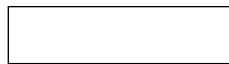

Identify which system will work for your shelving system
