tender®

Save time, enhance presentation and promote rotation with the Yogurt Tender®

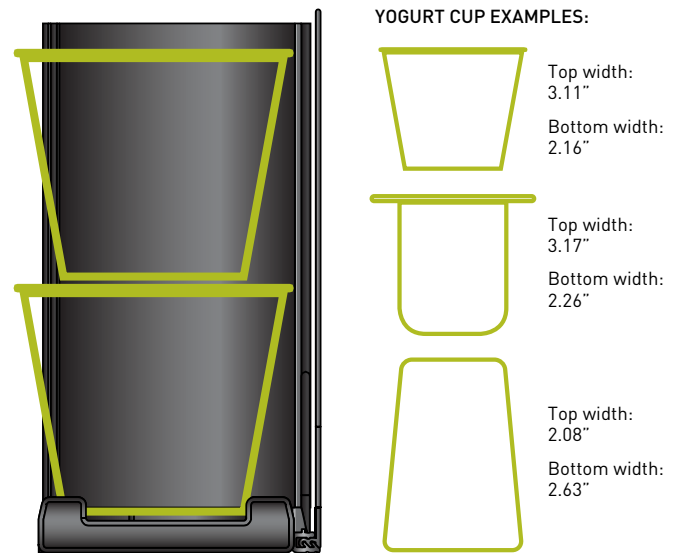

The Yogurt Tender® combines the simplicity and effectiveness of manual pull systems with a superior puller design and nesting dividers that creates zero planogram (POG) disruption.

Easily place new stock at rear with open-side design.

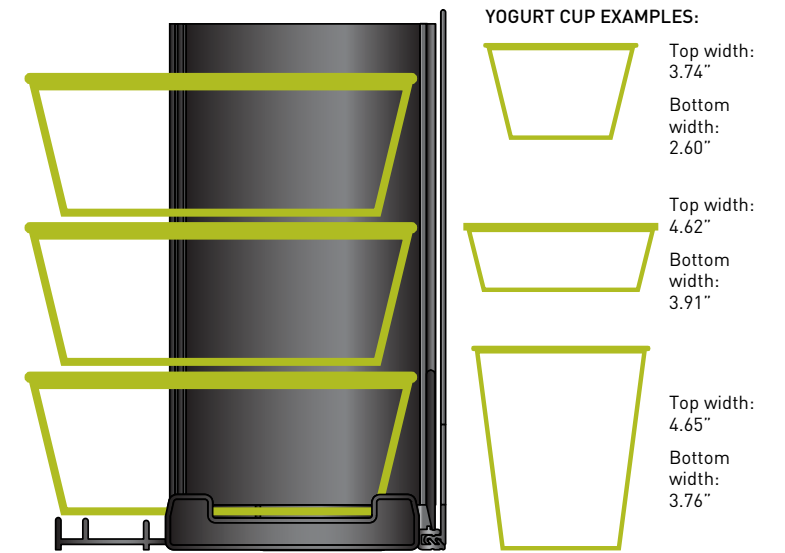

Easy-to-grasp puller handle is a breeze to find, pull and return.

Yogurt Tender – Narrow

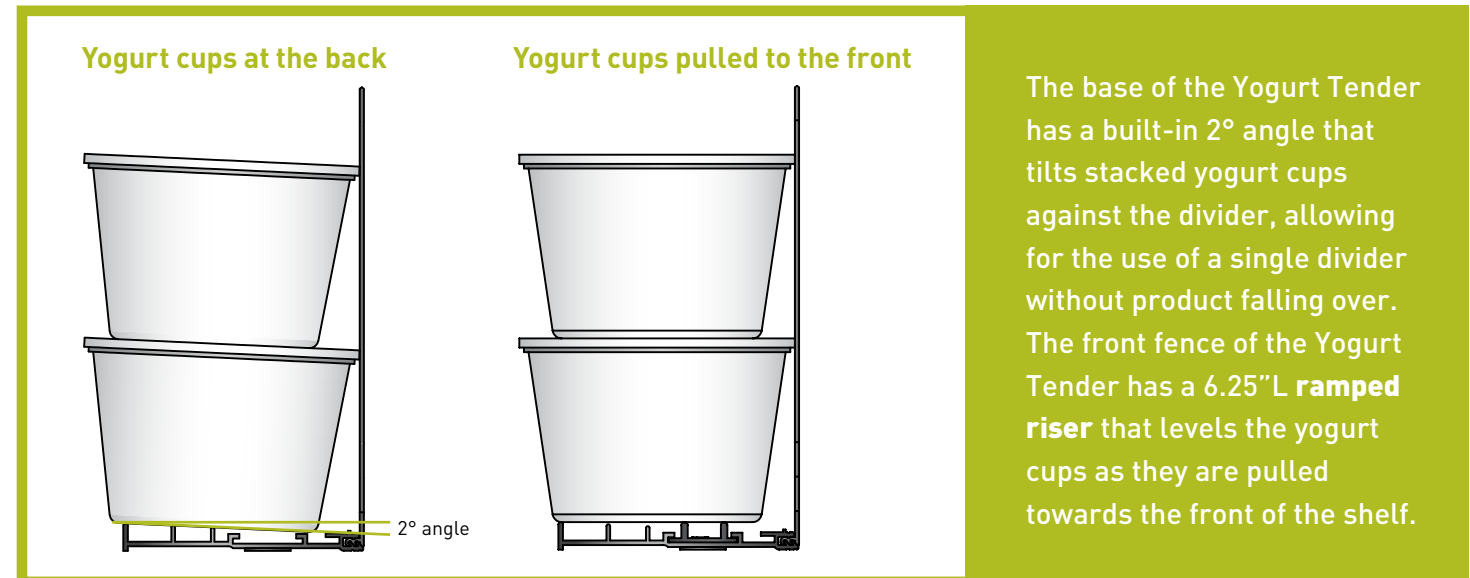

Recommended for yogurt cups **2.62" W to 3.17" W**. Fits all small cups and can be used with drinkables.

Yogurt Tender – Wide

Recommended for yogurt cups **3.64" W to 5.00" W**. Works with all large "Greek" cups, all "flips", and the large 32 oz. tubs. (Can be used with sour cream, dips and ice cream pints).

SELF-LEVELING PRODUCT

The base of the Yogurt Tender has a built-in 2° angle that tilts stacked yogurt cups against the divider, allowing for the use of a single divider without product falling over. The front fence of the Yogurt Tender has a 6.25" L ramped riser that levels the yogurt cups as they are pulled towards the front of the shelf.
