The **DELOS**[®]

NEW

Based on custom knifemaker Kurt Merriken's popular "Karma" design, the Delos is an exceptionally elegant and eye-catching knife. The graceful handle profile and stunning modified tanto blade command attention and strike a perfect balance between aesthetics and functionality.

Named for the mythological Greek birthplace of Apollo and Artemis, the Delos features premium 120-layer rose patterned German Damascus steel and handle scales made of anodized Titanium and Fat Carbon[®] in "Dark Matter Blue" or "Black Dunes". Fat Carbon[®] is a durable, lightweight carbon fiber composite that seems to change and shift in the light, making it a perfect pairing to the dramatic Damascus blade. The Delos includes stainless-steel caged bearings for rapid, smooth opening and is held secure in your pocket with a contoured Titanium pocket clip. Complementing polished or black hardware complete the look of this exquisite knife. Made in Maniago, Italy, known as the "city of knives", where centuries of high-quality knife craftsmanship and the latest technology meet.

Weight: 3.0 oz / 85 g
Blade Length: 3" / 7.6 cm
Overall: 7" / 17.7 cm
Thickness: 0.125" / 3.2mm
Lock Type: Frame Lock, made in Italy

- A Dark Matter Blue w/ blue titanium \$524.99 121BL
- B Black Dunes w/ black titanium \$549.99 121BK

POCKET KNIFE
Perfection
 The **SOLSTICE**[®]

Designed by renowned custom knife maker Andrew Demko, the Solstice is the epitome of executive knife excellence. Our mission was to design the best gentleman's knife possible, with an eye for elegance and sophistication, and the performance to back up its good looks. Modern, discreet, lightweight, and easily carried in your front shirt or suit pocket, the Solstice was made to Demko's exacting standards and crafted from the highest quality materials.

Available in three blade styles (Straight, Harpoon, or Wharncliffe) and featuring aerospace grade titanium or optional carbon fiber handles, and premium USA made Crucible s35vn stainless steel for the ultimate edge retention and wear resistance. The Solstice includes our signature fold-over ambidextrous stainless steel deep carry pocket clip and stainless steel caged bearings with flipper opening for incredibly smooth and fast deployment. The Solstice is more than an elegant accessory, it gives you the precision to perform, and the power to impress.

Weight: 1.7 oz / 49 g (Carbon Fiber)
 2.5 oz / 71 g (Titanium)
 Blade Length: 3-1/2" / 9 cm
 Thickness: 0.125" / 3.2mm
 Overall: 7-3/8" / 20 cm
 Blade Finish: Satin or Black PVD

ENGRAVED Titanium SOLSTICE®

A knife that's designed for distinction. Elevate your everyday carry with our Titanium Solstice, available in four precisely laser-engraved handle patterns and two blade finishes. The intricate, elegant engraving and modern, simple design make for a truly timeless pocket knife. Engraved models include the same premium features of the original Solstice, including USA-made Crucible s35vn steel, our signature fold-over ambidextrous stainless steel deep carry pocket clip, and stainless steel caged bearings. Contact us for a custom assembly with a Harpoon or Wharncliffe blade.

Pocket clip is reversible for left-handed carry

Strategy

Something *Different* for your desk

A letter opener, a fidget, a collectible, a tool. Our new Duo Desk Knife is all of these and more. Effortlessly open letters and packages while elevating your deskscape with a piece of functional art. The unique design features two symmetrical chisel ground knives held together with neodymium magnets. They snap together and apart with satisfying ease, perfect for anyone who is a fan of fidget tools and sensory gadgets.

Designed in collaboration with custom knife maker Wes Crawford, the Duo Desk Knife is available in Wharncliffe or Spear Point blade shapes and features two unique CNC machined handle patterns and a comfortable finger groove for the ideal grip. Each individual knife is the optimal thickness for daily desktop cutting tasks. A premium walnut and stainless steel stand is included to elegantly display your knives and keep them in easy reach.

The SEATON

Bearing the namesake of its designer, the Seaton is a classic gentleman's knife updated with modern styling and materials. Featuring a sleek, elegantly contoured carbon fiber or stainless-steel handle, a compact leaf point blade made from Japanese AUS-10A or VG-10 steel, and a thumb stud for easy opening. In keeping with its minimalist, lightweight and classic styling, the Seaton was designed without a pocket clip. The Seaton is a timeless, classy pocket knife designed to handle smaller everyday cutting tasks, yet stylish enough for every outfit or occasion.

LIFETIME WARRANTY

We stand behind our products 100%. All Ocaso[®] knives and accessories carry a limited lifetime warranty. We warrant that our knives are free of defects in workmanship and materials. If one of our knives ever breaks or fails because of a material or manufacturing defect, we'll repair or replace the knife. This warranty does not cover normal wear and tear, damage, breakage or failure caused by misuse, lack of normal maintenance, or disassembly.
