

**CONCEPT**

This project was created thanks to the constant request of our clients for a quality inflatable tent in the shape of a “tunnel” and also for a tent with a rectangular ground plan. This was as a challenge to AXION Pod was born.

Of course, there were added several design options to create a tent with a wide application such as event tent, temporary car shelter, technical background for promo showrooms, exhibitions, sports events, schools and much more.

dye sublimation print		roof/walls/structure					
material		polyester / TPU					
flame retardancy		B1 (DIN 4102-1)					
standart scope of delivery		transport bag - steel anchoring set - anchoring ropes - repair kit - manual					

-  roof
-  structure
-  base
-  wall full
-  wall with window
-  wall panorama
-  wall with door
-  wall bottom
-  wall border
-  banner
