Hardware Configuration Requirements

Bluetooth 4.0 or later, Bluetooth adapter

Getting Started

Bluetooth Connection

Turn on your mouse using the switch at the bottom.
Press and hold the left, middle, and right buttons simultaneously for 3 seconds until the bottom indicator light flashes quickly.
On your device, search for "ESSE BT 5.0" in the Bluetooth settings and select it to pair.

2.4G Wireless Connection

Plug the USB receiver into your computer's USB port.
Turn on your mouse, and it will automatically connect without needing further setup.

Power On/Off

Use the power switch located on the underside of the mouse to turn it on or off as needed.

Sleep/Wake Mode

After 10 minutes of inactivity, the mouse enters deep sleep mode. Press any button to wake it.

Battery Display

The battery status is shown by the indicator lights at the top right of the RGB board:

- 4 lights: 100%
- 3 lights: 75%
- 2 lights: 50%
- 1 light (white): 25%

The lights will remain on for 10 seconds when the mouse is powered on, then turn off automatically.

RGB Lighting Mode Operation

Lighting Mode Activation

Press the lighting mode switch at the bottom of the mouse to activate. Cycle through 11 different lighting effects.

Turning Off Lights

Press and hold the button to turn off the lights.

Lights during Sleep Mode

After 10 minutes of inactivity, the mouse enters sleep mode and lights turn off. Press any key to wake the mouse and the lights will turn back on.

Troubleshooting

Q1: Why can't my device find the mouse in Bluetooth mode?

A: Make sure the mouse switch is on, and press and hold the Bluetooth pairing button for 5 seconds to activate pairing mode.

Q2: Is the mouse compatible with Huawei laptops?

A: Yes, the FLUX mouse is compatible with iOS, macOS, Android, Windows, and other systems on smartphones, tablets, and computers.

Q3: How long does the mouse battery last?

A: The mouse can last up to 15 days without RGB lighting, or about 8 hours per charge with RGB lighting active.
