

1. Shut off power before installation.
2. Fix the mounting strap to ceiling.
3. Insert light arms with wires into the bottom basket, screwing the nuts.
4. Attach wooden slats to the basket and tighten with screws. Then fit wires into the grooves of the slats.
5. Insert wires through the wiring box and fix slats to the box with screws.
6. Feed the main wires through threaded rod and the side hole of the nut. Connect main wires to wires in the same color and put on the cover plate.
7. Insert the main wires through the bottom connector of the chain. Then, screw the chain onto threaded rod tightly.
8. Insert the main wires through the top connector of the chain, canopy and the connecting rod. Then connect the main wires to the corresponding wires in ceiling.
9. Attach the canopy to the mounting strap and screw the top connector onto the connecting rod, fixing the mounting nut.
10. Screw in light bulbs (not included with the light fixture) and hang the metal ball onto the basket. Turn on the power and test.
