# TEXTILES

*Inspiration is found in everyday life.*

- Beth Lacefield

Lacefield Designs, founded by Beth Lacefield in 1996, is an artisan design house and manufacturer based in Atlanta, Georgia.

Layering life experiences into the work, our design team creates textiles inspired by the human spirit, nature, relics, and culture.

Crafting exquisitely detailed products that enrich living spaces, our designs begin by hand and take shape through various mediums — painting, pen and ink, block printing, and paper and scissors.

 INDICATES TEXTILE IS DIGITALLY PRINTED.

# CHELSEA

TEXTILE COLLECTION

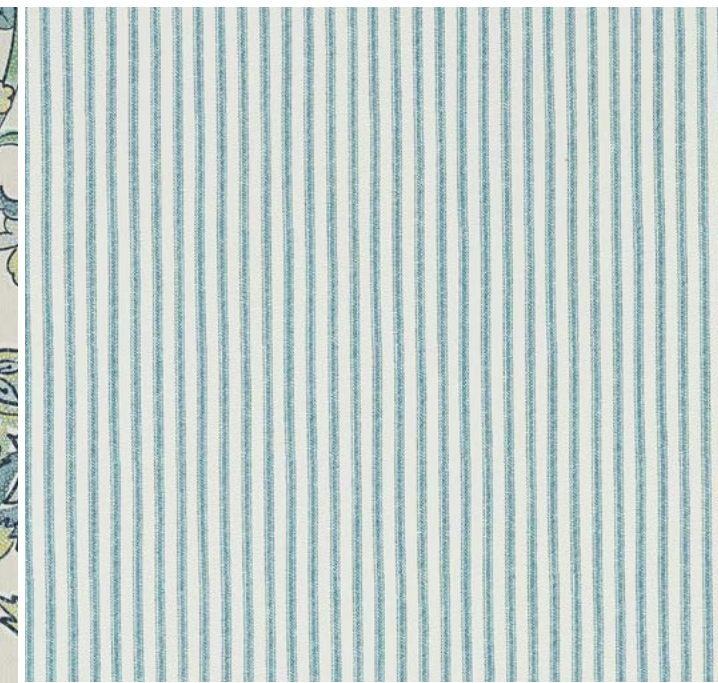

Beth's travels this past May to London's Chelsea Flower show & Countryside in Cotswold's provided the perfect inspiration for our new collection.

Our last few collections have had beautiful florals, and everyone has been asking for more.

The glorious gardens provided the perfect subjects for our artist's canvas.

Interior Designer and Tastemaker Holly Hollingsworth Phillips of The English Room partnered with our own Beth Lacefield to create a wildly sophisticated capsule collection of textiles. Beth and Holly were inspired by travel and fueled by a passion for pattern, color, and bold combinations. Patterns in this collaboration include animal, stripes, and florals in mesmerizing detail.
