Instructions:

1. Extend your design to include the 10mm bleed between the **RED** trim lines and the outer **GREY** lines.

2. Keep all important elements within the **GREEN** safe lines.

3. Convert all text to outlines or contours.

4. Use CMYK or Pantone colors and provide Pantone codes.

5. Save your file as a PDF. Upload it to our website, or use wetransfer.com for large files.

6. Email us with any questions.
