Plant Disease Scan

PAGE: 1 / 1

PROJECT NO:

PO#: [Redacted]

LAB NUMBER: [Redacted]

SAMPLE ID: NL2R2 BWOG GPOP CBD BPUD FRIT

SAMPLE MATRIX: Plant Tissue

DATE SAMPLED: 2023-07-11

DATE RECEIVED: 2023-07-13

DATE REPORTED:

DATE PRINTED: 2023-07-14

PARAMETER	RESULT	UNIT	METHOD REFERENCE
Hop Latent Viroid (HLVd)	Negative	P/A	RT-PCR

Results reported on a as is basis

ND - Not Detected

The results of this report relate to the sample submitted and analyzed. All results are released based on acceptable QC data.

Results Authorized By:

[Redacted Signature]

[Redacted Signature]

[Redacted], Microbiology Manager 1

This analysis detects and quantifies pathogens known to be agents associated with certain plant diseases. The presence of a pathogen does not necessarily indicate that plant disease will occur. Plant disease will only be caused by not only the presence of a pathogen but also plant susceptibility, favourable environmental conditions and health status of the plant.

A&L Canada Laboratories Inc. is accredited by the Standards Council of Canada for specific tests as listed on www.scc.ca and by the Canadian Association for Laboratory Accreditation as listed on www.cala.ca

Additional information available upon request

This Certificate of Analysis has been prepared for use by the Recipient only. Possession of this Certificate of Analysis, does not carry with it the right to reproduction or publication in whole or in part nor may it be used by anyone other than the Recipient without the prior written consent and approval of A & L Canada Laboratories Inc. ("A&L Canada"). Upon receipt of this Certificate of Analysis by the Recipient from A&L Canada, A&L Canada shall not be responsible for and no claim shall be advanced against A&L Canada as a result of the unauthorized reproduction, use or distribution of this Certificate of Analysis.
