Large Sinks (greater than 25" wide)	\$80.00
Pedestal Lavatories & Consoles	\$80.00
Faucets & Accessories	\$40.00

KITCHEN SINKS

Features & Benefits

The kitchen is often considered the heart of the house, where family moments unfold—whether it's preparing Grandma's special recipe, baking with children or brewing the morning coffee—the possibilities are endless. Yet, a kitchen is not truly complete without a timeless masterpiece.

Enter our Adria and Ramsay Fireclay Kitchen Sinks. Manufactured in a diverse cultural environment with a nature-friendly approach, they embody minimal waste, reliance on renewable energy and reduced emissions. These high-quality kitchen sinks seamlessly combine style and functionality to enhance your space.

Crafted from pressure cast fireclay with a hygiene glaze, our sinks are resistant to chipping due to impacts or sudden heat changes and inhibit harmful bacteria growth by 99.9%. They are scratch resistance, easy to clean and unaffected by chemical products. Available in Gloss White or Matte Black finish, with non-crazing surface. In addition, you have the freedom to choose between a classic apron front or counter surface level installation, complete with garbage disposal compatibility, all backed by rigorous safety testing.

Both, Adria Fireclay (Single Bowl) Kitchen Sink and Ramsay Fireclay (Double Bowl) Kitchen Sink, include stainless steel grid and strainer.

See specs for more details.

Our Cheviot kitchen sinks are sure to add a touch of enduring elegance to the heart of your home.

Kitchen Sinks

CAST IRON BATHTUBS

Features & Benefits

At Cheviot, we take immense pride in the elegance and durability of our Cast Iron

Bathtubs, but

our commitment extends far beyond just creating luxurious bathroom fixtures. We are deeply committed to environmental stewardship, recognizing the significant impact that industrial practices can have on our planet. In response, we've positioned ourselves at the forefront of sustainable practices within the bathroom fixture manufacturing sector, strictly adhering to the European Integrated Pollution Prevention and Control (IPPC) directives. This commitment is woven into the fabric of our operations, ensuring that our luxurious products are matched by an equally strong dedication to minimizing environmental harm.

Our manufacturing process is a testament to our dedication to sustainability, fully embracing the IPPC directive. This cornerstone of our environmental policy has reshaped how we approach manufacturing, integrating comprehensive pollution control measures across air, water, and soil. By implementing advanced filtration systems, we capture over 99% of fine dust particles, significantly

reducing air pollution. We've established meticulous storage and handling procedures to prevent soil contamination and optimized water use, ensuring all wastewater is treated before reintegrating into the natural cycle.

Our adherence to European regulations such as REACH and ROHS demonstrates our commitment to safe chemical use, safeguarding both human health and the environment.

Our journey towards sustainability is not just about compliance; it's about embedding a culture of environmental responsibility into every facet of our operations. By choosing Cheviot, our customers are not just investing in luxury and longevity but are also supporting a vision for a more sustainable and environmentally conscious world.

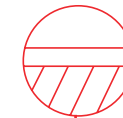

We understand our responsibility extends beyond crafting high-quality bathtubs – to making a commitment to the planet and future generations. As we continue to lead the way in sustainable manufacturing, we invite you to join us in our commitment to a greener, cleaner future.

With Cheviot, you choose a world where luxury meets sustainability.

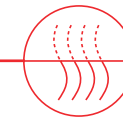

MADE IN EUROPE

Multigenerational production facility with skills and techniques perfected over many decades.

TITANIUM DIOXIDE ENAMEL

A robust enamel, the hardest, least porous, and most resistant to acidic and alkaline cleaning agents. Must precisely control the contraction of enamel and iron which is only possible on sand castings.

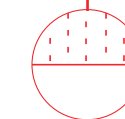

SUPERIOR HEAT RETENTION

Cast iron absorbs heat from water and then replaces it as water cools. This keeps your bath warm for the longest possible time.

ORIGINAL DESIGNS

All designs created in-house in Europe. Designs often copied by low cost imitators.

SAND CAST

Costly casting technique designed to carefully control thickness of iron which is important for enamelling stage.

SOLID SURFACE BATHTUBS

Features and Benefits

MODERN DESIGNS
Nature of material and production lends itself to smooth, modern designs.

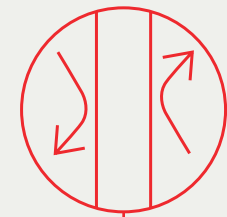

NATURALLY INSULATED
This keeps your bath warm for the longest possible time.

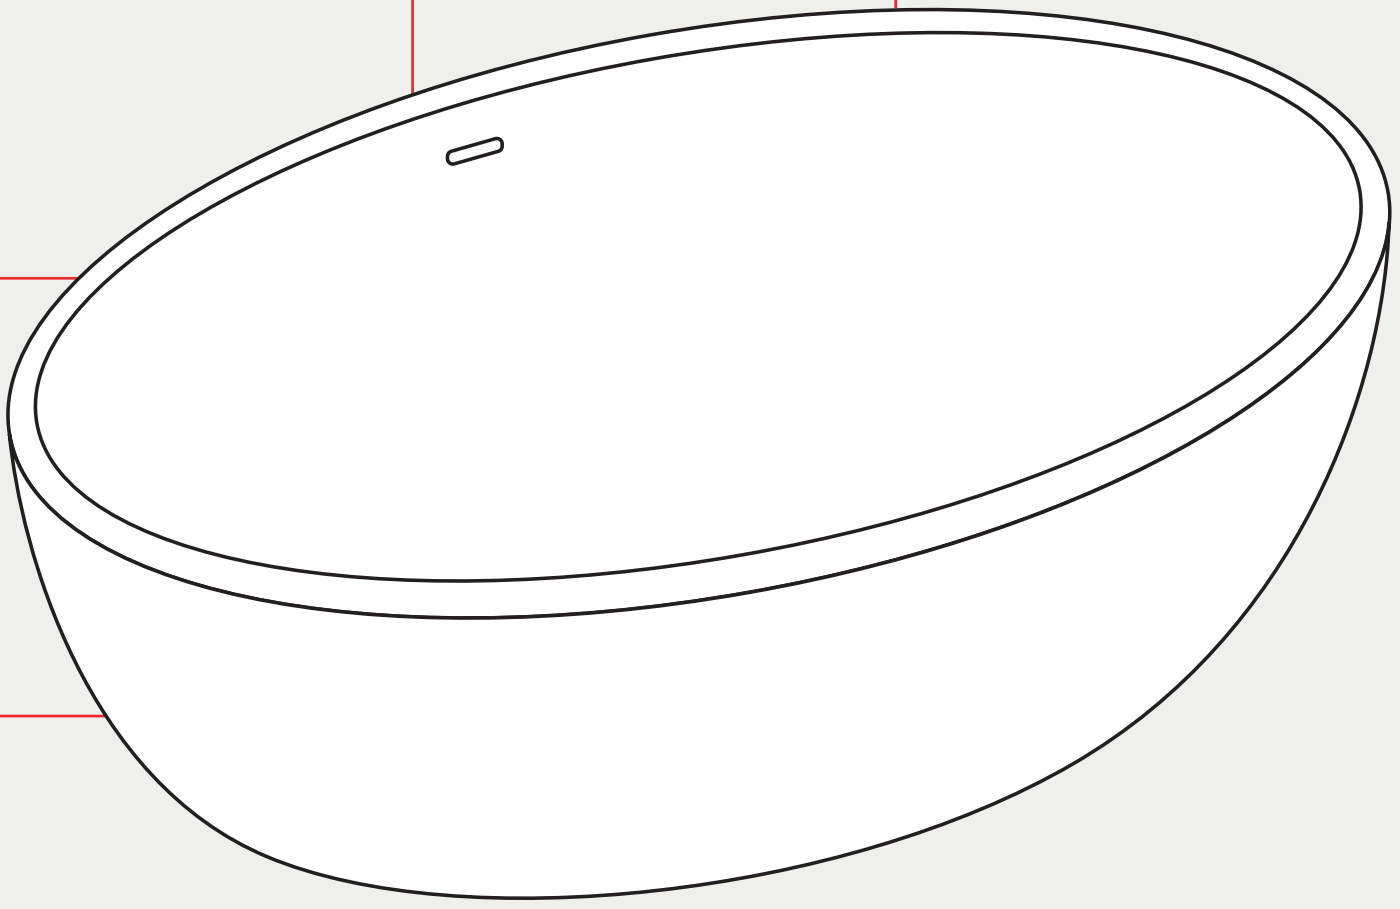

COLOUR
Same surface for interior and exterior of bathtub. Colour carries over seamlessly.

INTEGRATED DRAIN
No need for exposed drain systems. Clean design.

SOLID MATERIAL
Scratches can be polished out or repaired.

FAUCETS & ACCESSORIES

Features and Benefits

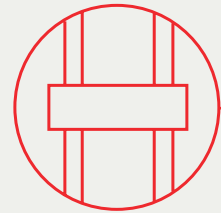

BRASS COMPONENTS

Extensive use of brass even on components that don't touch water. This elevates the tactile experience and luxury of the products.

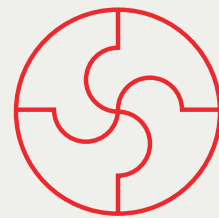

CERAMIC ACCENTS

Use of ceramic accents rather than plastic. This elevates the tactile experience and luxury of the products.

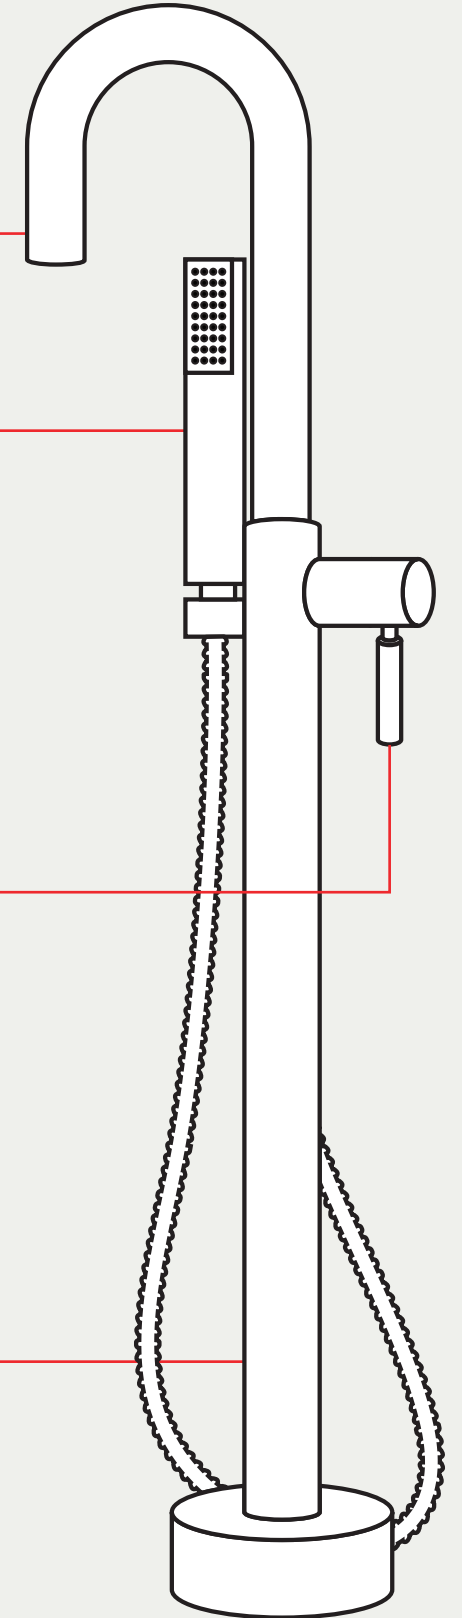

CERAMIC CARTRIDGES

This smoothest and most durable method to control water flow.

COMPATIBILITY

Selected to work well with Cheviot Bathtubs.

Legend

TM (Tub Mount)

Faucet can be mounted to the inside wall of the bathtub. #35576 Water Supply Lines should be used.

WM (Wall Mount)

Faucet can be mounted to the wall of the bathroom.

FS (Free Standing)

Faucet can be made free standing by using #3965, #3970, #3970XL or #3980 Water Supply Lines.

RM (Rim Mount)

Faucet can be mounted to the rim of a bathtub with 6" centres by using #39826 Pillars.

6" drilling

Faucet can be mounted to the rim of a bathtub with 6" centres. #3411 Water Supply Lines should be used.

7" drilling

Faucet can be mounted to the rim of a bathtub with 7" centres. #3411 Water Supply Lines should be used.

6"-8" drilling

Faucet can be mounted to the rim of a bathtub with 6", 7", or 8" centres. #3411 Water Supply Lines should be used.

DM (Deck Mount)

Faucet can be mounted to the deck of the bathtub enclosure.

*NOTE: Tub weights

Tub weights presented are for empty tubs only. Water and packaging weights are not included.

BATHROOM SINKS

Features & Benefits

Bathrooms are tranquil havens within our homes, completing the

mood with timeless sinks, and transforming into a personal space for relaxation, or a shared space for families, a powder room and/or a guest-bathroom.

Like the boundless sky, at Cheviot we have endless styles and sizes of our bathroom sinks. They stand as the focal point, drawing a great first impression—whether seamlessly integrated into a vanity, or set as a corner unit, or a free-standing sink.

Create a personal style that suits you best with our Designer Collections; The Horizon, The Ruy Ohtake, Plural and Equal sinks where special attention has been given to the form, function, and inspiration of each collection. Alternatively, choose from our

Drop-in, Undermounts, Pedestal or Console sinks made of Vitreous China or Fireclay. Fired onto each sink is a fine glaze of powdered glass, ensuring a lifetime of durability, ease of cleaning, and resistance to bacteria and other microbes.

Cheviot's production process for sinks ensures a minimal environmental footprint, aligning with the 17 Sustainable Development Goals of the United Nations 2030 Agenda. In 2022, Cheviot achieved significant sustainability milestones, including a reduction in production energy intensity and carbon emission intensity, along with an impressive 86.6% of waste being recycled.

Our Cheviot bathroom sinks are sure to add a touch of enduring elegance to your tranquil space.

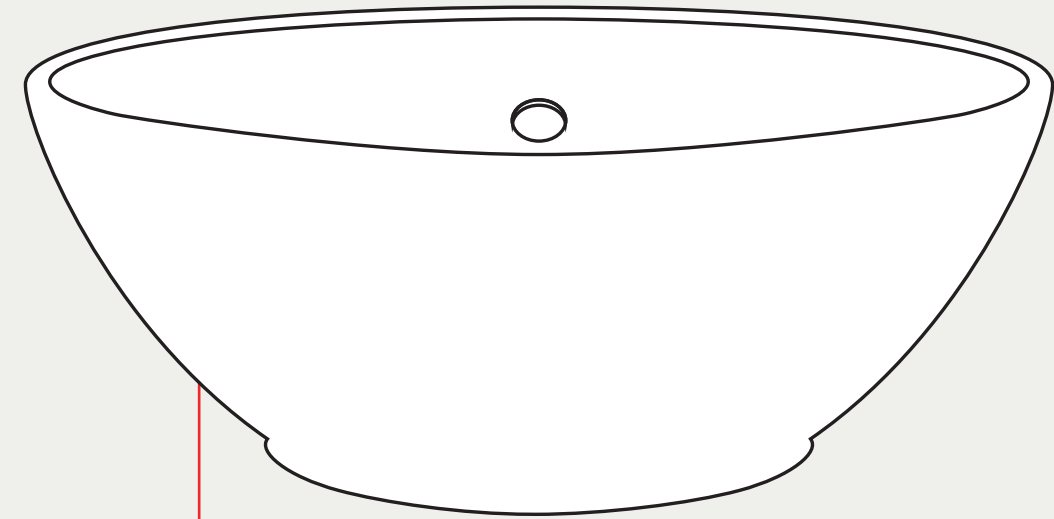

DESIGNER COLLECTIONS

Designs by globally recognized designers like Ruy Ohtake, Teri Pecora, Joao Armentano, and Fernanda Marques.

GEOGRAPHY

Production in places like Turkey with ancient bathing culture. Focus on expressing culture, not minimizing cost.

VITREOUS ENAMEL

Fired onto each sink is a fine glaze of powdered glass to ensure a lifetime of durability, ease of cleaning, and resistance to bacteria and other microbes.

João Armentano

The Horizon Collection by Brazilian architect

João Armentano is inspired by the interplay of scale, geometry, and the play of light vs shadow.

The sinks in this collection are low and long with a minimalist profile recalling the horizon over calm water. The linear theme is continued in the basin where water flows over a flat or sloped surface to an elegantly concealed drain.

Drawing on his background in architecture, Mr. Armentano applied special effort to maximize practicality in the collection.

Basins remain wide to prevent splashing while expansive surface areas serve as easy-to-clean stages for daily toiletries.

Ruy Ohtake

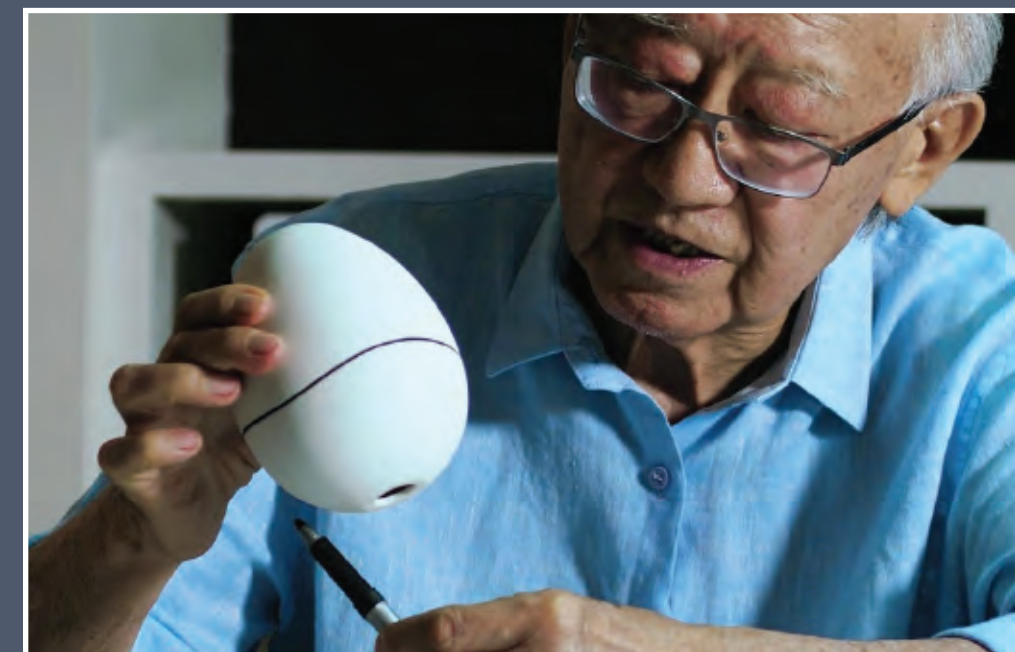

The Ruy Ohtake Collection was inspired by natural phenomena such as the curve of a wave, the ever-changing line of the horizon, and one of nature's purest forms, the egg.

"I really like the curved element because it's harder than a straight line," Ohtake, reflects about his design. He chose the shape of the curve, because it is not fixed in its course; rather, it is unpredictable and can be perceived differently by various observers depending on their viewing angle.

The collection is a reflection of life:
moving, changing, beautiful.

Plural

Designed in collaboration with Milan-based American designer,

Terri Pecora.

Inspired by the heritage of communal bathing spaces

and rituals, the award-winning Plural collection

presents the bathroom as an informal

living space, making it the new heart of the home.

Organic-shaped design elements can

be used in multiple combinations to form a

personalised intimate setting, while a neutral

colour palette and American Walnut wood

finish bring a sense of warmth and domesticity.

Equal

Designed in collaboration with

Claudio Bellini.

Equal represents the equilibrium
between the rational and the sensual.

It employs basic geometric
forms obsessively shaped by simplicity,
embracing at the same time natural
organic forms. Through the
ordered, edgy but still rounded and
soft forms, Equal creates the ultimate
bathroom harmony.

TERMS AND CONDITIONS

Data Discrepancies

In the event of data discrepancies between this document and the printed price book dated 1 May 2024, the printed material shall be deemed as correct.

Prices

All prices are F.O.B. Blaine, Washington and are subject to change without notice.

Terms of Sale

Our terms are Net 30. Service charge of 1-1/2% per month will be added to amount outstanding over 30 days from invoice date.

Receiving Goods

It is important to check the accuracy of your order and the condition of the goods immediately when received. Doing this can help to avoid unnecessary misunderstanding, delays or inconvenience. DO NOT allow any products to be installed that are thought to be unacceptable in any way. We take the view that any product installed will be deemed acceptable by the customer.

Returns

A return goods authorization must be obtained prior to any merchandise being shipped back to Cheviot Products. Returns made for reasons other than our shipping error or defects will be subject to a 25% restocking charge. Transportation costs for returns must be paid by the buyer. Contact: rga@cheviotproducts.com.

Claims and Damages

All goods are inspected before leaving the warehouse, and delivered to the carrier in good order. Shipments become the property of the consignee who assumes the risk of loss or damage in-transit. All claims arising there from must be immediately made to the carrier by the consignee. Other claims for variances or shortages will not be considered unless presented within five days after receipt of goods. Buyer agrees to make all claims for goods damaged or lost in transit against the carrier.

Limited Product Warranty

Our fixtures are warranted to be free of defects in material and workmanship for a period of one year. Cast iron claw foot bathtubs carry a three months warranty when used for commercial purposes. Any parts that are proven defective by our inspection in material or workmanship and have not been subjected to abusive treatment or faulty installation, will be replaced free of charge, but with no allowance for labour, other expenses or losses. We make no other warranties, express or implied, including that the product sold is merchantable, or fit for a particular use. Under no circumstances shall we be made liable for special or consequential damages, loss or expense of any nature whatsoever.
