## Notes

- 1) Crucible packs flat into a heavy-duty carry bag only 5 inches tall that will slide into any crevice of your car, truck, or RV.
- 2) Crucible has 9 adjustable leaves that allow you to control the intensity of the flames by restricting the airflow and redirecting the smoke.

- 3) Fire literally means to 'release heat'. The Crucible wood fire pit brings back the heat that is strangely missing from 'smokeless' fire pits.
- 4) Crucible does not need a protective lid/cover to keep rain & debris out. The Corten weathered steel develops a patina and lasts a lifetime.
