Rust Proof Shaft

Photographic
WHITE SHOOT UMBRELLA
Made with High Grade Fabrics

The Digitek White Shoot Umbrella work to broaden and soften the light source and create a more pleasing overall quality of light than the bare flash itself. Digitek Shoot-through White umbrellas are constructed from translucent white fabric through which the flash passes to produce soft, seamless light. The benefit of working with a shoot-through type of umbrella is that you can place it closer to your subject—the ability to place your light source closer to your subject produces a softer light, which is especially well-suited to wedding photography and portraiture.

Its long shaft allows the umbrella to be moved closer to the light source for a narrower beam of soft light or further away for a wide beam of soft light. It allows approximately 50% light transmission. It acts like a very large Softbox at a very low cost.

Suitable for all studio flashes. Ideal for Portraits & Object Product Shooting for Portraits & Object Product Shooting.

INTELLIGENT POWER SOLUTIONS

SprintX

ECR-11MC AA/AAA Charger

1. Can charge 1-4pcs of AA/AAA Ni-MH/Ni-Cd rechargeable batteries & with LCD Battery Display
2. Charging by IC control, with -V intelligent Cut Off the rapid charging function, automatic transfer to Trickle-Charging, ensure the battery can be fully charged and not overcharged.
4. There is a letter" CHG" showing on LCD after battery loaded.
5. Constant Current charging for longer battery life & Auto Cut-Off charging. Ensure Safety usage.

SPEEDSTER

ECR 11 AA/AAA Charger

1. This charger can charge AA/AAA Ni-MH/Ni-Cd rechargeable Batteries.
2. Individual charging slot, charges 1/2/3/4 AA/AAA sizes at a time
3. Super Quick Charger, charges 2100mAh in just 1.2 Hours.
4. Desktop Charger with Indian Plug & LCD Display.
5. Constant Current charging for longer battery life & Auto Cut-Off charging. Ensure Safety usage.

COOPER

ECR-20MC AA/AAA Charger

1. Can charge 1/2/3/4 pcs of AA/AAA Ni-MH/Ni-Cd Rechargeable Batteries.
2. LED shows the charging process of its corresponding charging slot, but will not turn off when fully Charged.
3. The charger would not charge the batteries loaded with wrong polarity or dry one.
4. Constant charging current & voltage keep the battery life longer.
5. Protection against overheat & over current.

NEXA

ECR-30 AA/AAA/9V Charger

1. Can charge 2 or 4pcs AA/AAA or 1-2 pcs 9V Ni-MH / Ni-CD Rechargeable Batteries.
2. The Red LED will show the charging process of its corresponding charging slot, but will not Turn Off when fully charged.
3. The charger would not charge the batteries loaded with wrong Polarity or Dry cells.
4. Constant charging Current & Voltage keep the Batteries Life Longer.
5. Protection against Overheat and Over current.

Beetle

ECR 20 Battery Charger

1. Charge 2 or 4 pcs AA/AA Ni MH/Ni-Cd batteries.
2. Two LED's show the charging process of its corresponding charging slot, but will not turn off when fully charged.
3. The charger would not charge the batteries loaded with wrong polarity or dry one.
4. Constant charging current and voltage keep the battery life longer.

9V Ni-MH 300mAh

Infinite 9 Volt Rechargeable Ni-MH Battery is an Ready to Use & Rechargeable battery. You can use it straight from the pack. No need to charge before use.
1. 300mAh / 9V Li-ion battery with Micro USB charging port.
2. Can charge by Micro USB Cable with Wall Adaptor, Car Charger or Power Bank via the Micro USB port.

AA Ni-Cd 1000mAh

Functional design: Set of 4 International Standard universally compatible Rechargeable Ni-Cd batteries
Capacity : Best in Industry 1000mAh with 500+ charge cycles & no memory effect.
No Memory effect & Low Self Discharge

9V MU Li-ion 800mAh

Infinite Plus 9 Volt MU Rechargeable Li-ion Battery is an Ready to Use & Rechargeable battery. You can use it straight from the pack. No need to charge before use.
1. 800mAh / 9V Li-ion battery with Micro USB charging port.
2. Can charge by Micro USB Cable with Wall Adaptor, Car Charger or Power Bank via the Micro USB port.

AA 2800mAh RTU

Infinite Plus AA 2800mAh Ready to Use - Rechargeable
Functional design: Set of 4 universally compatible Ready to Use - Rechargeable Ni-MH AA Batteries which can be used straight from the pack without initial charging.

Capacity : Best in Industry 2800mAh with 1200+ charge cycles & no memory effect.

Low Self Discharge : Remain charged upto 80% for 12 months without use.

AA 2100mAh RTU

Infinite AA 2100 is an Ready to Use & Rechargeable Low Self discharge Ni-MH Battery. You can use it straight from the pack. No need to charge before use.
Capacity : 2100mAh Ni-MH with 1200+ Charge Cycle. & No Memory Effect.
2. Low Self Discharge Rate : Remain Charged up to 80% for 12 Months without use.

AAA 1100mAh RTU

Infinite Plus AAA 1100mAh is an Ready to Use & Rechargeable Low Self discharge Ni-MH Battery. You can use it straight from the pack. No need to charge before use.
Capacity : 1100mAh Ni-MH with 1200+ Charge Cycle. & No Memory Effect.
2. Low Self Discharge Rate : Remain Charged up to 80% for 12 Months without use.

AAA 800mAh RTU

Infinite AAA 800mAh is an Ready to Use & Rechargeable Low Self discharge Ni-MH Battery. You can use it straight from the pack. No need to charge before use.
Capacity : 800mAh Ni-MH with 1200+ Charge Cycle. & No Memory Effect.
2. Low Self Discharge Rate : Remain Charged up to 80% for 12 Months without use.
