

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE (ESG)

GAP ANALYSIS WORKSHOP

BRIDGE THE GAP BETWEEN INTENTION AND ACTION

Whether you're starting your ESG journey or preparing for sustainability reporting, our ESG Gap Analysis helps identify where your organization stands – and what's needed to meet stakeholder expectations and regulatory demands.

WHAT IS ESG GAP ANALYSIS?

An ESG Gap Analysis is a structured assessment that compares your current Environmental, Social & Governance practices against recognized ESG standards, such as **Bursa Malaysia Sustainability Reporting Guide, Global Reporting Initiative (GRI)** and **TCFD / SASB / UN SDGs**. It reveals gaps between your existing efforts and best practices, helping you build a clear and focused ESG roadmap.

WHAT WE COVER

- Environmental Practices (energy use, waste, emissions, compliance)
- Social Responsibility (labour, health & safety, community impact)
- Governance Structure (anti-corruption, ethics, transparency)
- Materiality Assessment & Stakeholder Mapping
- Review of policies, data readiness, and reporting practices

OUR APPROACH

KICK-OFF & ESG UNDERSTANDING

We clarify your current goals, commitments, and regulatory landscape.

DATA COLLECTION & DOCUMENT REVIEW

We assess existing ESG-related policies, procedures, and metrics.

GAP IDENTIFICATION

We benchmark against leading ESG frameworks and highlight gaps.

ACTION PLAN & RECOMMENDATIONS

We deliver a practical report with clear actions for improvement and reporting readiness.
