PelGar Rat Station

The PelGar Rat Station, made in Alton (UK), has been designed and manufactured to give the best functionality to you at the most competitive price.

The **PelGar Rat Station** begins and finishes its life in an environmentally friendly way, it's made from recycled plastic and is also fully recyclable in normal household waste.

The **PelGar Rat Station** is hinged on the right hand side which allows for full opening while the bait

station is in place. The bait station has also been manufactured with security in mind in the form of a wall bracket which the bait station clips onto.

Rat station housing extruded and cast blocks

Your logo here - large area for logo and baiting details, 12.5x7cm.

The **PelGar Rat Station** has also been designed with rat behaviour in mind. It has a textured 'non-slip' floor which gives it a more natural feel, full width openings for easy access with just a small lip to prevent water entry, and drainage holes in the floor for when the weather conditions get particularly adverse.

The **PelGar Rat Station** is supplied with its own key which has been glass reinforced for

extra strength and durability – the same key will also open the **PelGar Mouse Station**.

PelGar Rat Station

When it comes to placing bait the **PelGar Rat Station** is very versatile. Two bait reservoirs either side of the station each comfortably hold 100g of grain or pellet bait, while both vertical and horizontal bars can be added to secure blocks and pasta/paste bait.

*Above: Rat station housing grain/pellet bait.
Below: PelGar's wax block and pasta bait
secured on the horizontal bar.*

The **PelGar Rat Station** will also safely house a 'break-back' trap with two location clips in the centre of the station, and a hole on the other side allows the trap to be set with a cable-tie without opening the box.

The **PelGar Rat Station** is supplied in outers of 10 units with a horizontal bar for each station and 3 keys per outer, in addition to this vertical bars, wall clips and bait station dividers are available as pictured below.

Shipping Information

The **PelGar Rat Station** is efficient when it comes to shipping and storage and on average will fit 20% more on a pallet. The stations are packed in cartons of 10 units, 35 cartons to a pallet which measure a total of 120 x 100 x 222cm.
