Natural Products Expo West

I returned from sipping, sampling and snacking my way through this year's [Natural Products Expo West](#) - a mecca of all things natural for people, pets and the planet. With a record breaking 63,000 attendees, and 2,428 exhibiting companies, it was super fun discovering new natural finds and, at times, very overwhelming: the crowds, the line ups, the enthusiasm for a healthier way of being. Like a kid in a (natural, organic) candy shop, the most fun for me was exploring new natural skin care products and products to keep us beautiful inside and out. Here are a few brands that stood out for me, and why:

Surya Brasil

Looking for something new? [Surya Brasil](#) offers beauty, health and well-being with Brazilian flair! This unique line of vegan body care products includes natural hair color and organic body care using sustainable Amazonian plants, innovative manufacturing techniques and biodegradable packaging. The method behind their madness is to bring together Nature, the Science of Ayurveda and the technology for contemporary beauty.

100% plant-based and formulated with unique, ethically harvested plants and fruits from the Amazon (such as Buriti and Cupuacu), [Surya Brasil](#) also offers a sleek and sophisticated hair

and body care collection for men, Sapien. There's no denying that passion is at play with [Surya Brasil](#) and it is through their passion for natural beauty that they strive to transform the beauty industry to hold the purest values of not only beauty, but also health and wellbeing while maintaining environmentally sustainable practices.
