## Surya Brasil Amazônia Preciosa Leg and Foot Lotion Review

Surya Brasil continues to amaze and dazzle me with their beautiful products, and while they are all truly special there is one in particular that I think that you need to know about for the stress and strain that we experience over the colder months and during the holidays. It is this time of year that we tend to run around, stand in long lines, stand on our feet cooking for the holidays, wearing heels for longer stretches of time, and generally ask more of ourselves than other times during the year. It was as I was massaging Surya Brasil's amazing **Leg and Foot Lotion** into my tired legs and feet last night that it occurred to me that you might need this very pick-me-up as I do right now!

*A refreshing and invigorating treatment for tired legs and feet. Contains exotic plant oils and butter from the Amazon.*
