Surya Brasil 'Sapien Men' Facial Scrub

Having being one of those fortunate enough to be blessed with very sensitive skin, exfoliants and scrubs are generally a no go area, however the Surya Brasil Sapien Men facial scrub pleasantly surprised me. The scrubbing grains were tough enough to do the job, whilst still being fine enough to be gentle on my sensitive skin. Where other scrubs have left my skin red and irritated, the Sapien Men facial scrub felt refreshing and even, dare I say it, soothing. After using the scrub twice a week, I've noticed that my skin seems more 'awake' and feels much smoother. Certainly one I will continue to use, and will be buying in future and of course this is great for any guy with acne scarring or discoloration.
