

Wooden Potato Barrel Assembly

Step 1: Remove all packaging.

Step 2: Open out the Potato Barrel to make a complete cylinder shape.

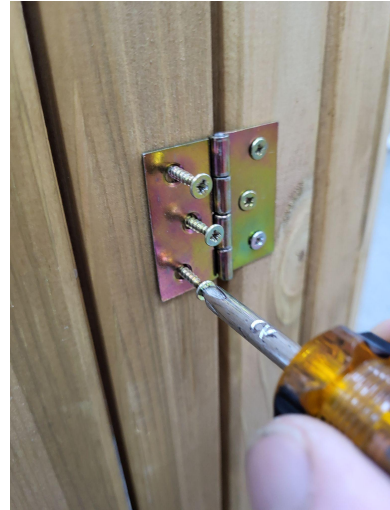

Wooden Potato Barrel Assembly

Step 3: Unscrew the 6 Screws located at the edge of the Barrel (3 at the top, 3 at the bottom)

Step 4: Next, unfold the 2 hinges and line them up with the holes where the screws were. Then screw the hinges in place to join the Barrel together.

Step 5: The door near the bottom can then be closed using the hook & loop.

Step 6: Place your Barrel on a level surface. It's now ready to be filled with compost.
