Touch Screen to Activate Controls

Navigation Operation (M4-LCD Only)

Direct Selection:

Press and release the button from any screens to enter the navigation screen.

Note: Pressing the button again will return the unit to last non-GPS screen.

Homepage Selection:

Touch the **HOME** button to activate the Homepage screen. Touch the **GPS** button to enter the navigation screen.

Navigation Menu:

The typical way of using the navigation system is to select a destination and start navigating. You can select your destination in the following ways:

- Use the selected location on the map (the cursor).
- Enter a full address or a part of an address, for example a street name without a house number or the names of two intersecting streets.
- Enter an address with zip code. This way you do not need to select the name of the city and the search for street names might be faster as well.
- Use a coordinate.
- Use a saved location: a favorite, a POI (point of interest) or the history of previously set destination.
