

SCORE 100

Heavy-Duty Multipurpose Industrial Cleaner

Product Description:

SCORE 100 is a user-friendly, heavy-duty cleaning concentrate that has a formula based on strong alkaline solutions. It is an alternative to many hazardous industrial cleaning compounds based on solvents i.e. paraffin, trichloroethylene, benzene, etc. or high concentrations of Sodium Hydroxide. SCORE 100 is principally designed for use in the cleaning and degreasing of hydrocarbon-based deposits, animals, vegetable oils waxes, dyes, ink, nicotine, mould and other stubborn contaminants on all metals, plastics, rubber, concrete, etc.

Features:

- The product is biodegradable.
- Score 100 replaces solvent-based products.
- Highly concentrated.
- Can be diluted depending on the contamination and method of working.
- Strong alkaline solution.
- Can be used in a wide range of applications.

Application:

SCORE 100 can be applied with a wire brush and wiped hardy or by high pressure spray equipment or by the use of immersion or circulation. The chemical can be diluted with water depending on the amount and type of contamination, but typically the use of 1 part of chemical concentrate to 20 parts water is effective for general cleaning and degreasing. For stronger contaminations, a higher concentration of the chemical should be used.

Active Ingredient:

CAS Number

Aqua	: (CAS No.) 7732-18-5
Isotridecanol-Ethoxylate	: (CAS No.) 68439-46-3
Disodium Metasilicate	: (CAS No.) 6834-92-0
Sodium Hydroxide	: (CAS No.) 1310-73-2

Physical Properties:

Physical State	: Liquid.
Colour	: Pink Liquid.
Odour	: Distinct Odour.
pH	: 13.3 @ 20°C
Flashpoint	: N/A

Storage:

Products shall be ideally stored in a cool, dry location in unopened containers at a temperature between 8° to 28°C (46° to 82°F) unless otherwise labelled. Optimal storage is at the lower half of this temperature range. Do not return any material to its original container to prevent contamination of unused products.

Packaging:

Available in 10 litres, 25 litres and 200 litres Packaging.

Safety:

Refer to the appropriate MSDS before handling and using it. Due to the product composition based on the caustic blend, handling products without protective gloves is not recommended.
